"Outwitting the Hun"

From page 3

I did not know then how soon I was to be confronted with the second.

As it was, however, the incident gave me a world of confidence. It demonstrated to me that there was nothing in my appearance at any rate to attract the attention of the German soldiers. Apparently I looked like a Belgian peasant, and if could only work things so that I would never have to answer questions and thus give away my nationality, I figured I would be tolerably safe.

As I marched along I felt so happy I couldn't help humming an air of one of the new patriotic songs that we used to sing at the airbase back in Tyros.

To complete the ship building program, any trees you can spare from your groves are absolutely needed. Will you not write the Western Ship Supply Co. at Room 1201 Northwestern Bank Building, Portland, Oregon, and let them know how many you can spare.
