IT GOES ANYWHERE -- AND DOES ANY KIND OF WORK

# Cleveland Tractor

Equal to the work of three men and three good three-horse teams

We could write this ad by just telling you in the owners own words what this wonderful little geared-to-the-ground Tractor is doing for ranchmen in Oregon and Washington.

The Cleveland will do anything that horses or mules can do -- and can go where they can't -- over gullies, ruts and ditches, through soft soil, wet clay, sand and gumbo. No sinking or floundering--

does not pack the soil.

Only one man is needed to run the Cleveland. 12 horsepower is developed at the drawbar and 20 horse at the pulley.

Uncle Sam wants more farm products--and you want the profits to be earned! You can replace the men you have lost with a Cleveland.

### READ WHAT THESE OREGON AND WASHINGTON MEN HAVE TO SAY

Coburg, Oregon, August 30, 1918.  
McNeff Tractor Co., Portland, Ore.  
Gentlemen: I have had my tractor hitched to most everything on the farm, including the Ford Car. Last spring after we finished plowing, I pulled a ten horse load working the ground down and covered the ground at a faster rate than the team traveled. I have filled Silos, Plowed, Harrowed, Disced, Hauled Hay, Hauled the Manure Spreader, Pumped Water, Sawed Wood, and am going to fix a pulley on the drive shaft so I can run the milking machine and cream separator with the tractor in case the one-half horse power motor goes wrong for a few days.

C. B. SWANGO.

Vancouver, Wash., August 28, 1918.  
McNeff Tractor Co., Portland, Ore.  
Gentlemen: I have been using the Cleveland Tractor since March of 1918 for orchard cultivation, and have found it all that is claimed for it. Am using a two-bottom 12-inch plow -- a 16-16 disc--the latter I can use with a 10 foot spike harrow or a 10 foot clod machine--thus doing the work of 3 teams and men. My land is extremely rolling, but the Cleveland has no trouble making the hills.

A. HAMILTON.

Washougal, Wash., August 26, 1918.  
McNeff Tractor Co., Portland, Ore.  
Gentlemen: I have used the Cleveland Tractor for one year, and consider that it has replaced at least 2 teams and drivers when in use and done better work. I used it for a few days threshing with a 26-36 American machine, which pulls heavy. For cutting silage it is tip-top. I have 8 silos to fill with this fall.

R. E. TURK.

See a CLEVELAND at Work--Then You'll Want One

It plows, harrows, plants, reaps, cuts ensilage and feed, runs saws and pumps, pulls road machinery, and does practically all the work formerly done with horses and stationary engines.

Fill out and mail the coupon, or write us for name of closest place where you can see a Cleveland demonstrated.
