## Condon Has Noise-fest Monday

Everybody Helps to Celebrate; Kaiser Burned in Effigy

Condon took a holiday Monday and everybody joined in a celebration that was a blend of the spirit of July 4 and Thanksgiving. It was a carnival of noise and any contrivance that would make a racket was popular. The news that the armistice had been signed arrived here early and it spread rapidly. The streets were soon crowded, autos were dragging any from tin roofs to the baby buggy and horns, whistles, bells and voices added to the din. The band, which had not had a

rehearsal for three years, got out and added an amazing number of discords to the noise-fest. Everyone gave expression to his or her rejoicing but through it all there was a strain of sober and reverent thought for those boys who suffered and died in France to make such a gala day a possibility. In the evening a street dance was enjoyed and Kaiser Bill, Hindenburg and several others of that unholy crew were hung and burned in effigy.

All U. S. Treasury Certificates of Indebtedness of series 4 D, dated August 6, 1918, and maturing December 5, 1918, are hereby called for redemption on November 21, 1918, at par and accrued interest pursuant to the provision for such redemption contained in the certificates. On November 21, 1918, interest on all certificates of said series will cease to accrue.

## Government Tries Local Lawyer

Federal Court Requires J. D. Weed to Answer Complaint

Testimony in the government case of the United States vs. J. D. Weed was taken at the court house Tuesday afternoon before H. A. Van Horn, referee. Complaint had been filed against Weed charging him with executing an unnecessary paper in connection with a homestead filing in order to make more money out of it, and also of having obtained a homestead relinquishment by coercion. The land office started the proceedings against Weed to require him to show cause why no more business of a public land nature should be set before him for transaction. In other words Weed is required to show why he should not be dismissed as U. S. Land Commissioner. Eugene H. Blessington, the witness against Weed, testified to the effect that about three years ago Weed came to him at a sheep camp on Rock Creek and told him that the government was after him for being

away from his homestead and would send him over the road unless he immediately signed a relinquishment to the homestead. Blessington also testified that Weed told him the officer was at that time on the way to take him in charge but if the paper was signed everything would be all right. Blessington says he proceeded to sign the paper but after thinking the matter over decided that he had been buncoed and came to town and repudiated the relinquishment. Weed testified that Blessington signed the relinquishment voluntarily and of his own free will. His testimony was in direct contradiction to Blessington's. The government was represented by a special attorney of the land office and Weed by two outside attorneys.

A homestead contest was also tried, the contestant being the United States and the entryman John Madden.
