

Seth Vandable to unveil a new bronze sculpture at BRONZE COAST GALLERY

Seth Vandable began his career as a commercial artist and painter in central Texas. This background, combined with many years of studying human anatomy, have contributed to his current international success and recognition in fine art bronze sculpture. Focusing primarily on figurative work, Vandable's current pieces highlight both the strength and vulnerability in his subjects. "I am always inspired and amazed by the people around me, becoming increasingly convinced that every individual I meet is truly a marvel in their own environment. My sincere wish is that through my work, people will recognize their own heroic nature. May they find hope through a sense of connection to all souls conquering life's changes...reaching for the same dreams...succeeding with integrity and beauty."

Seth will make his first visit to the Bronze Coast Gallery in Cannon Beach May 6, 7 and 8, and will be unveiling a new bronze sculpture on Saturday May 7 at 6 p.m., with an artist reception immediately following.
