HILL BELIEVED IN MOVE

SOUTHERN PACIFIC ENGINEERS RESURVING SURVEY.

Work of Eight Years Ago Gone Over Again, Due to Activity of Portland West Coast R. R.

(Evening Telegram)

Sheridan, Ore., July 15.—A party of Southern Pacific engineers left here today to resurvey the old Southern Pacific survey from here to the coast. The original survey was made some eight years ago and the present party is merely relocating and checking the data as furnished by the original survey.

It is probable that when the electrification of the Southern Pacific proceeds this far they will build on, providing the present party relocating the survey reports favorably.

This action on the part of the Southern Pacific is due to the action of the Portland West Coast, which has a survey and stretches of right of way through this section. It is said here that the Portland West Coast is merely a dummy corporation, operating for the Hill lines.
