THE GOOD JUDGE AND THE FLORIST KNOW WHAT'S WHAT

ONE 10c. pouch of "Right-Cut," the Real Tobacco Chew, lasts longer than twice the money will buy in the old kind.

A new blend of mellow, sappy tobacco—seasoned and sweetened just enough.

That's what makes it taste so good and why it gives you such comfort and satisfaction.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end.

It is a ready chew, cut fine and short shred so that you won't have to grind on it with your teeth. Grinding on ordinary candied tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses and flour. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind.
