Our old friend, Mr. Gustaffson, came into Cloverdale from the Sour Grass road Thursday evening, and left on the stage this morning for Tillamook, where he will take a train for Portland. He reports some slides on the new project, but none that will cause any great trouble to grade out.

It is reported that a train left Tillamook for Portland yesterday morning and that an incoming train will arrive this evening. As we have had no outside mail this week this is welcome news. It is said the train service will be every other day until the weather condition settles.

Mrs. Mary Hawkins, aged 42, mother of fourteen children, and wife of James Hawkins, of Siletz, died suddenly Wednesday evening. Her husband, five boys and seven girls survive. Two of the children are dead. Mrs. Hawkins had been in rather ill health for a year. She started to prepare the evening meal about 5 o'clock and gave up the task, complaining of a headache. She retired, became unconscious, and at 9 o'clock was dead. Death is attributed to hemorrhage of the brain. Mr. and Mrs. Hawkins at one time lived at Beaver and later near the Dennis mill at Cloverdale.

Mr. and Mrs. Foster Return Home.

Mr. and Mrs. J. C. Foster, who for the past six months have been visiting in the east and middle west, returned to their home in Cloverdale Saturday evening of last week. Since their return Mr. Foster has been slightly indisposed and has not got around to shake hands with all his old friends. We understand he was considerably disappointed to find on his return Cloverdale in the grasp of a regular eastern winter, his hopes being that as soon as he got west of the Cascades he would breathe in the air of the almost ever present Chinook zephyrs that the Nestucca Valley is noted for.

Revising Our Books.

Since the first of the year we have been revising the circulation books of the Cloverdale Courier and we find a few who are in arrears and to them we want to make an appeal, asking them to pay up. We are doing this in all kindness but with sincerity.

Some time ago we mailed statements to a number of delinquent subscribers and most of them responded heartily, and right here we want to thank them for their promptness.

We are making the Courier just as interesting as we possibly can and considering the limited field, believe that the Courier is above the average. Bear in mind that the Courier is first, last and all the time, a booster for the Nestucca Valley. It always has been a booster and always will be. It has done its part to put the valley to the front, enhancing the value of every piece of land therein, and it has and is now receiving better support from the citizens of the valley than is usually accorded a local weekly newspaper. In other words the Courier is entitled to the support of the people and is getting it. The price of the Courier is so small that were we to mail out statements to any extent we would soon spend more money and time than the small accounts would be worth.

As a favor we are going to ask those who are in arrear to either call us by phone, drop us a card or see us personally, and tell us when it will be convenient to settle. Should you be in arrears and after February 1, fail to receive the paper do not feel offended, it is not of our choice we do this, but it is necessary.

When you receive a copy of the Courier marked "Sample Copy" your name is not on the subscription list and are in no wise obligated to the paper for the payment of the same. It is our way of reminding you that the Courier is after business.

The Courier is \$1 a year and you need it in your home just as much as we need your dollar in our business.

Chloroforming a Ship.

An American patent has been granted for a method of submarine warfare which provides for anaesthetizing the crew of an enemy's ship. The plan is to steer the submarine close alongside the ship and to shoot the end of a projectile into the hull, while the rear end maintains a tubular connection with the submarine. An anaesthetic is then pumped from the submarine into the hull of the attacked vessel.

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and ¼ oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.

Evangelistic Meetings.

The revival meetings at the Presbyterian church are increasing in interest. Every evening the evangelists, Montgomery and Northrup, are at their best in sermon and song, and it is a pity that every person within a radius of five miles of the church cannot hear them. There are good congregations every night, but still room for more.

Program for next week:

On Sunday morning Rev. F. S. Ford will conduct service as usual. Sunday school at 10 a. m. Public service 11.

A special meeting for Christian people at 2:30 p. m.

Subject evening service—"The Devil."

Monday evening—"Heaven."

Tuesday evening—"Hell."

Wednesday evening—"Christ and the Resurrection."

Thursday evening—"Signs of the Times and Christ's Coming."

Friday evening—"Signs of the Times and the Judgment."

No service on Saturday evenings.
