NO. 33

## WHISKY POWDER IS BARRED BY LAW

**Attorney General Says Compound  
Offered by Eastern Concern  
is Taboo.**

Recently a reader of the Courier handed us an advertisement of a whisky powder, stating that several of these advertisements were in circulation here, and wanted to know its legality. We advised him to send the advertisement to the district attorney for his advice. The advertisement profusely stated that the powder could be sold and used in any state in the union and that it came within the scope of preparations permitted by the federal laws.

The following is clipped from one of our daily newspaper exchanges and is self explanatory:

"A powder from which an Ohio company says 'the most delicious and mellow whisky can be made' comes within the purview of the prohibition law and cannot be sold in this state, according to the opinion of Attorney General Brown for the district attorney of Coos county.

"Attorney General Brown held that 'Zanol' came within the provision of the prohibition law which says 'all mixtures, compounds or preparations, whether liquor or not, which are intended when mixed with water or otherwise, to produce by fermentation, or otherwise, an intoxicating liquor, shall also be deemed to be embraced within the term intoxicating liquor,' as defined in the law."

## "ALL A MISTAKE" WEDNESDAY EVENING

MARCH 1, 1916

"Laugh and the world laughs with you; snore and you sleep alone.

Twenty-five cents a laugh is a bargain sale price, but on Wednesday evening of next week, the first day of the calendar month of March, the Cloverdale High school students are going to give a play that will make you laugh from start to finish.

"Captain Obediah Skinner," the title alone is enough to make you laugh, and when Ferdy, the rainmaker, is electrically connected with the captain, the sparks of magnetic laughter will echo and re-echo through the hall. If you are not there you miss a chance to enjoy a spontaneous combustion of the funniest of funny things.

The boys need the money to pay for tools for the manual training department of the school, and when you hand over your two-bit piece, it will be used for that purpose. Children will be admitted for 15c.

The Cloverdale hall has been secured for the occasion and the play will begin at 8 o'clock sharp.

## LAW OF 1913 PREVENTS SOUR GRASS BECOMING STATE HIGHWAY

**McMinnville News-Reporter Says  
Old Fairdale-Trask River Road  
is Present Highway.**

Because the Yamhill-Tillamook highway goes over a very high hill, over the old Fairdale and Trask River route, as outlined on the map adopted within a year after the passage of the state highway act in 1913, Yamhill county officials appeared before the state highway commission at Salem Wednesday and ask that the commission approve the Grande Ronde-Sour Grass route as the most practical route.

John Alberts of the advisory board contended that the board was powerless to make any change in the routes of the highways as adopted and the only way it could be changed was by legislative action. The law said the highway map must be adopted within a year after the act's passage. Governor Withycombe thought Alberts was right and Kay disagreed. It was decided to submit the matter to the attorney general.

### The Foot of the Reindeer.

The foot of the reindeer is most peculiar in construction. It is cloven through the middle, and each half curved upward in front. It is slightly elongated and capable of a considerable amount of expansion. When glaced on an irregular surface which is difficult to traverse, the animal contracts the feet into a sort of claw, by which a firm hold is secured. When moving rapidly the two portions of the foot as it is lifting strike together, the hoofs making a continuous clattering noise, which may be heard at a considerable distance. It is this peculiarity of the feet that makes the reindeer so sure footed and so valuable in rocky and uneven country, where almost any other animal would prove a failure as a beast of burden.
