THURSDAY, APRIL 6, 1916

Was that a really and truly airship airship that sailed over Tillamook bay the other day or did some one just receive their monthly allowance.

We hope clean-up day at the school will become contagious. Clean-up day for the town generally would have a desirable effect on the general appearance of the place.

Many times are we asked why Cloverdale does not incorporate into a city? This is the wish of a great many citizens and the only reason and the real one is that we haven't as yet acquired sufficient population. It requires one hundred and fifty souls inside the corporate limits to form a municipality.

District Attorney Goyne is keeping tab on the liquor shipments into Tillamook county, also the sales of alcohol for external use. It is said that there are some taking oath that they want the alcohol for baths and that from general appearance the applicants hadn't had even a common bath for the past year.

Take the old reliable White stage for a comfortable, safe and sure trip to Tillamook.

GERMANY'S LESSON TO THE UNITED STATES.

The mobility of the German army is one of the secrets of Germany's great success. The kaiser's country has used the same men time and again on the east and west fronts. In less than three days Germany can shift an army from one side of the country to another. She uses the army in an engagement on the west, makes gains and holds her place with a small number of soldiers, comparatively speaking, and then rushes the main body across the country to another field of operations and uses them there. The constant shifting of troops has been to the great advantage of Germany in making her quick drives.

A German captain, who served for sixteen months with the German forces, on his return to New York is quoted by a New York paper as saying that to his knowledge 40,000 troops were started from the western lines to a position on the eastern front and made ready for action against the Russians in sixty hours.

Germany's remarkable railroad facilities are in a large measure responsible for this unusual mobility of its armed forces. But that is not the whole story. Much training had been given in mobility before the great war started. An essential part of the scheme of German efficiency is to be prepared in details.

It is interesting to observe that when our army maneuvers were called for five years ago to take place on the Mexican border, much time was consumed in getting the forces to their destination. The maneuver division was to consist of three infantry brigades, a field artillery brigade, an independent cavalry brigade and the necessary auxiliary troops, an aggregate strength of 15,056 men and 613 officers. Orders were issued on March 6. By March 31 the number at the concentration point was 11,254; on April 30 it was 12,598; on May 31 it was 12,09; and the maximum strength was not reached until three months after the order to assemble had been given.

CLOVERDALE PEOPLE GET INSTANT ACTION

Those who have used it in Cloverdale are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. Because it acts on BOTH upper and lower bowel, ONE TEASPOONFUL Adler-i-ka relieves almost ANY CASE constipation, sour stomach or gas. It removes such surprising foul matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. W. A. High, druggist.

YOU SAY YOU NEED AMMUNITION, WHY YOUR BELT IS FULL

YOU DONT CATCH ON JUDGE, I WAS HINTING FOR SOME OF THAT REAL TOBACCO CHEW

NOBODY wants to carry a big, bulgy wad of tobacco in his cheek. W-B CUT Chewing—the Real Tobacco Chew, new cut, long shred—is different. A small chew satisfies you. You don't have to spit so much—and you don't need to grind on it.

Get a pouch from your dealer and give it a quality test—then you'll know.
