**An Ancient Die.**

In the museum at Athens is shown what is probably the only genuine antique die used for coinage that is now extant. It was found in Egypt in 1904 and consists of bronze, engraved with the owl that was stamped on Athenian tetradrachma pieces, which contained about as much silver as three quarter dollars. The die is of scientific interest on account of the evidence it gives of the skill of the ancients 300 or 400 years before Christ in metallurgy. It contains about 22½ per cent of tin and nearly 70 per cent of copper. It is extremely hard, but at the same time possesses a certain malleability, due to the great purity of the copper and tin, which were carefully freed from all traces of lead and zinc to preserve the hardness and from arsenic and antimony to avoid brittleness.

**MANY IN CLOVERDALE TRY SIMPLE MIXTURE**

Many Cloverdale people are surprised at the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. This simple remedy acts on BOTH upper and lower bowel, removing such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adler-i-ka is astonishing. W. A. High, Druggist.
