By any grange in the county,  
By any cheese factory in the county,

He Had Patience.

An elderly gentleman was rambling along a country road one afternoon when he saw a small boy who had been sitting on the bank of a creek roll up his fishing line, pick up his can and start away from the piscatorial scenery. "You shouldn't give up so soon, my boy," remarked the elderly one chidingly. "The fish will be biting better in an hour or two."

"I know that," answered the boy a little sadly, "but I am"—  
"You give up too quickly," interjected the other. "The next time you come out here you want to bring more patience with you."  
"Tain't that, mister," said the boy, sighing deeply. "I got plenty o' patience, but I hain't got no bait."

DR. J. G. TURNER  
EYE SPECIALIST.

Incorrectly prescribed glasses increase eyestrain, deform the eyes, and make of your later years a time of permanently dimmed vision. Such glasses are common enough, but are eye destroyers and the product of inexperienced opticians. On the other hand, correctly prescribed glasses save the eyes from strain, increase their usefulness for you, if you wear them the day of dimmed vision may never arrive. Such glasses are eye builders and are prescribed by long experienced eye specialists. Dr. Turner has had years of hard practical experience as an exclusive eye specialist. This is no side line, for he devotes his entire time, energy, and effort exclusively to the eye, coupled with being educated in the best schools and many years of experience makes him a safe person for you to consult. Consult him at the Hotel, Cloverdale Monday and Tuesday, June 19-20, Beaver June 21, Tillamook June 23-24.
