The Nehalem Times says Attorney Callahan will oppose District Attorney Goyne in the November election by running as an independent candidate. Mr. Goyne is the regular nominee on the Republican ticket and got the nomination as fairly as anyone could, hence he will receive the required number of votes at the November election to give him a good majority. Mr. Callahan is a fine young man, comes from one of the best law colleges in the United States, and we haven't anything but words of commendation for him. Mr. Goyne has had the office long enough for the people to know just where he stands, his administration of office has been efficient and painstaking. He fought the battle of the ballots at the primary election and came out victorious, and to him rightfully belongs the support of the people. It has been because of Mr. Goyne's stand against booze that has made Tillamook county as free from bootlegging as it is today. As long as he was able to win in the first fight we do not purpose to stop in mid-stream to swap horses.

During the absence of the editor last week a communication, unsigned, came to this office. An unsigned communication is not a new thing for us to receive. Our waste basket has been the receptacle for many of them. This communication, however, was different from the rest. The writer evidently desired it to be treated as advertising matter, for enclosed with the communication was 50 cents and a statement that the writer would pay the balance, should there be any, as soon as he came to the city. Now, let us explain this to our readers: “A communication comes under the head of “news or editorial reading” and for such we do not charge. We will cheerfully give space to anyone to state their views, these views to be such as are printable. For this there is no charge and we will gladly publish the same. The communication first above referred to, we believe has merit and we will give it careful consideration when the writer's name is attached to it, not for publication, but we want to know that the writer is in good faith. It is not infrequent that we get a bunch of advertising matter with a request that we publish it free, as news matter. This class of stuff too, is consigned to the waste basket, but this is the first time we have ever received cash with what must be considered “purely reading matter.” Now our predicament is

what to do with the money. It is not ours and we cannot accept it. If the writer will kindly call at this office we will be pleased to refund the money and possibly a way may be found whereby much good can be accomplished.

The Nehalem Times says there is talk of recalling the whole county court. This time because there is dissatisfaction in districts two and three. This is news to the citizens of district No. 3. It also says that the north end will probably extend to the petition as cold a mit as did the south end on the recall petition of their commissioner. The recall of anyone unless based on something more substantial than previous ones will receive as little consideration as did the one referred to in the Times. Recalling officers unless for good and substantial reasons should not receive favor and we feel morally certain that the south-end citizens will turn down any unworthy petition regardless from whence it comes.

MANY IN CLOVERDALE TRY SIMPLE MIXTURE

Many Cloverdale people are surprised at the QUICK action of simple buckthorn bark, glycerine, etc., as mixed in Adler-i-ka. This simple remedy acts on BOTH upper and lower bowel, removing such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. A few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adler-i-ka is astonishing. W. A. High, Druggist.

Why Not Face the Facts About Armor Competition?

To the People:

The policy of the United States Government for many years has made real competition in armor-making ineffective.

The Government might have asked the three armor plants for bids and let the entire tonnage to the lowest bidder. That would have made competition effective.

The result of such a course would have been to drive two of the three manufacturers out of business, and leave the country with facilities of only one plant in time of need.

The Government in fact has always asked for bids from the three manufacturers, but no matter what the price quoted, each year's business was divided among them.

Armor makers serve but one customer—the Government, just as a public utility serves but one customer—a community.

The solution of the public utility problem is regulation of rates.

The solution of the armor problem is for the Government to fix the price.

We voluntarily agree to accept any price fixed by the Federal Trade Commission. Isn't acceptance of that offer better than the destruction of an industry built solely to serve the Government?
