### Paper Underclothing.

Underclothing made of finely crisped or grained paper is manufactured in Japan. After the paper has been cut to a pattern the different parts are sewn together and hemmed, and the places where the buttonholes are to be formed are strengthened with calico or linen. The paper is very strong and at the same time very flexible. After a garment has been worn a few hours it will interfere with the perspiration of the body no more than do garments made of cotton fabric. The paper is not sized, nor is it impermeable. After becoming wet the paper is difficult to tear. When an endeavor is made to tear it by hand it presents almost as much resistance as the thin skin for making gloves.

### MORE MEN THAN WOMEN

#### HAVE APPENDICITIS

Surgeons state men are slightly more subject to rppendicitis than women. Cloverdale people should know that a few doses of simple buckthorn bark, glycerine, etc., as mixed in Adlerika, often relieve or prevent appendicttis. This mixture removes such surprising foul matter that ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. The INSTANT, easy action of Adler-i-ka is surprising. W. A. High, druggist.
