Exterminate the Mole.

On Tuesday afternoon Mr. Shaffer, of O. A. C., gave an interesting as well as instructive talk in the Cloverdale Grange Hall. Mr. Shaffer told what traps to use and how to set them to catch the mole. He also explained how to prepare the skins for market. Mr. Shaffer then went into the field and demonstrated how to set the traps. Mr. Shaffer is organizing a boys' and girls' campaign against the mole. Many of the people of Cloverdale have already fallen in line to co-operate with him. A purse of five dollars has been raised for the boy or girl who will get the most moles by the end of the school term. Besides that many of the farmers have offered a bounty of five cents each to any one for each mole caught on their land. Boys and girls should speak to Mr. Spaulding at the store if they wish to know which of the farmers will pay a bounty of five cents each for moles caught on their land.

Mr. Farmer, now if ever, is your chance to fight successfully the mole. Just go the Mercantile Company's store and put your name in the list with those who will pay a bounty of five cents for moles caught on your land. Ask Mr. Spaulding to show you the list.

Rev. Jos. A. McVeigh, pastor.

If a feller approaches a mule careless like he kin learn more in two minutes than he kin learn in a grange meetin' in a year.

Marryin' a feller to reform him is a good deal like tryin' to make an appetizin' omelet out uv a bad egg.
