Agriculturist Jones, of Tillamook, phones us that a big silo excursion will make the Nestucca Valley Monday morning, passing through Cloverdale en route for Pacific City at 10 o'clock. He requests all those having machines to bring a load and meet the excursion.

It may be somewhat out of the ordinary to title a man "Haywire" and yet it may be highly appropriate. In one section of the country when a buggy or

wagon was so badly used up that it would not pay to have it repaired it was sometimes made useful by wiring the broken parts with haywire, of which there was an abundance in every rancher's yard. Hence when an article of any description had been badly broken it was a common expression to say that it had gone "haywire." It is presumed that the coming logging camp evangelist had at some time or another allowed himself to get into a haywire condition, or had gone "haywire" so to speak. He is to speak in the Presbyterian church next Sunday morning and evening, and besides telling of his experience will talk to the people regarding the salvation of their souls. Come and hear him; it

will cost you nothing. Bring a bit of change with you in case you feel that his lecture has been good, so that you can help to defray his expenses in coming to Cloverdale.
