

WOODS ITEMS.

Dr. Montgomery and wife are spending a few days in Portland, he being called as a witness in a civil suit, and his wife improving the time visiting his mother.

Mr. Northrup was at Hebo seeing about the new play shed on Monday. If this shed is builded as planned it will be one of the best we have ever seen anywhere. Size 36 x 60 feet and 12 feet high, with movable stage and commodious dressing rooms.

Mr. Stiverson, the Cloverdale photographer, took some excellent photographs of our mission and part of the people that were at the dedication, 58 of whom had a real family dinner in the building on dedication day. These pleasant family gatherings we hope to repeat from time to time during the coming season.

There seems to be prospects of considerable improvement here, some of the old buildings to be torn down and others remodeled and some new ones are in prospect, of which more will be said later.

Mrs. Fisher is still under the doctor's care in Tillamook. She is greatly missed by her friends and neighbors.

We believe there is more excitement here over Uncle Sam's postal business than anywhere else in the state at present.

We can see no reason why the Neatucca valley and our beach is not one of the most desirable districts in Tillamook county, and we are sure it will have a bright future.

T. E. Armstrong, manager of the Lake ranch at Gaston, and brother-in-law of Mine Host Antrim, of the Cloverdale Hotel, was in Cloverdale over Sunday. He came to investigate cheese making, as Gaston expects to have a cheese factory in the near future. While here he visited the tide lands south of Cloverdale, and gives it as his opinion that a caterpillar engine could be used in plowing and cultivating this land quite successfully. A caterpillar engine is used on the Lake ranch, and it may be brought here to operate on the tide lands.
