Arthur Tatro is a kindly disposed individual. About three weeks ago a deer was chased by dogs to his premises. The deer was given up when Mr. Tatro discovered it and upon investigation he found that the deer had a broken leg. To put the animal out of its suffering he shot it. Upon opening the deer he found a fawn in it which was still alive.

He took the fawn from the deer and is rearing it on a bottle. It is said that the young deer takes to the bottle as cleverly as a human child. I went to the theatre
With a low-brow friend,
And the orchestra played

And stood up

War Census Period of Grace Has Ended.

The period of grace for men of military age who failed for any reason to register on War Census Day, is ended.

From now on, every slacker is to be hunted down without mercy. There will be no more leniency.

Governor Withycombe has received official instructions from the Provost Marshal General at Washington, D. C., that the most vigorous enforcement of the penal clause of the law will be required against all who have not registered.

It is announced that the quota of men to be drafted into the military service from each state will be based on previous census estimates, not on the actual registration figures, which in Oregon was slightly lower than the estimate. Inasmuch as the men to be called are chosen by lot, the failure to register of any man who should have done so increases the chances against every other man who did his duty and registered.

For this reason, particularly, and also as a patriotic duty, every one of the 62,840 men who registered in Oregon is asked to help in the drive to round up the shirkers.

Already the sheriffs, police officers and precinct registrars have been directed by the Adjutant General to report all suspicious cases. But now through the press, and in response to official orders from Washington, all men who have registered are asked to aid in this Anti-Slacker campaign.

Of course, there may be a few who can present legitimate excuses for not having registered. But they will have to present them in court. The time for leniency is passed, and imprisonment faces those who tried to evade their duty to their country.

THE SENATOR DECLARES HIMSELF.
I LIKE W-B CUT TOBACCO, AND INTEND USING IT JUST AS LONG AS I WANT TO, REGARDLESS OF WHAT ANY ONE SAYS OR DOES.
I ADMIRE HIS SPIRIT OF INDEPENDENCE.
ACCORDING TO THE PRINCIPLES OF AMERICAN GOVERNMENT HE HAS THE RIGHT.

WHAT makes tobacco good is the sap there is in the leaf to start with and the way it's cured—some tobacco is sappier than others. If you take a big chew of W-B CUT, you may find it too rich for you. Take a little chew—it's made of fine, sappy, leaf; there's a lot of tobacco satisfaction stored away in it. The touch of salt brings it out, without so much chewing; and a little chew lasts and satisfies.
