JOB DEPARTMENT
My Job Department is complete in every respect and I am able to do all kinds Commercial Job Printing on short notice at reasonable prices.

THURSDAY, AUGUST 23, 1917.

If the price of soap goes up and a washless day is proclaimed then the small boy will have one day in the week to be jubilant.

The most welcome news of the year would be a dispatch telling about the abdication of the kaiser. Then the way to peace would be cleared.

There are several kinds of hogs, but the only kind that has any place in the U. S. A. during war time is the one with the curly tail, but there are others, we are sorry to say.

The daily papers of Portland are boosting for the conservation of labor and are strenuously urging the people of Portland to pack home the articles they purchase instead of having them delivered. This is a mighty sensible thing to do. There is another opportunity for the conservation of labor that we might call attention to. The other morning we took breakfast at the Hotel Benson and here we found no less than a dozen waiters, with napkin towels flung over their arms, when three could have rendered all the service necessary. What can be said of the Benson we believe is true of the Multnomah, Portland and several other of the first class hotel cafes. We issue this as a tip. Let conservation of labor take place in the higher walks of life as well as elsewhere. To have a man to wait at your elbow to serve you with what you may wish is all right when there is no shortage of help but at the present time let us make this conservation of labor general.
