Little Nestucca Road Boosters Meet.

Quite a number of Little Nestucca people met at the hall here on Saturday to discuss the situation of the Little Nestucca road relative to its be thrown out from its designation as a state highway. Mr. Beals was present at the meeting and said that matters had taken a different course than what was expected both as to the Little Nestucca and the county bonds for hardsurface roads. The question of improving the Little Nestucca road from Meda this way was discussed. Mr. Beals was asked if he would go to Salem as a representative of the people of this end of the county to confer with the state highway commission and he acquiesced, but only with the understanding that he defray his own expenses.

Mr. Beals has spent considerable money and a great deal of valuable time in the furtherance of good roads in Tillamook county and is entitled to more appreciation than we are sometimes prone to give him.

A telegram was received from him shortly after his arrival in Salem and it stated that he had succeeded in securing a promise that the matter of the Little Nestucca road would be held until a meeting of those interested in the Little Nestucca road and a representative of the state commission could be had.

Where is Your Boy?

Six million boys in prison camps; 14,000,000 boys under arms. The trenches will soon be filled with our boys. If it is not your boy you are especially favored by his presence at your fireside.

But how about your neighbor's boy? What are you doing to make his lot as easy as possible, under conditions that are not, at the best, what we would like?

Would you not like, in some way, to help in a work that will protect, in some measure, these home ties from breaking, while these boys are passing through these trying experiences for you and me?

There is just one institution which is accomplishing this work but whose powers are greatly thwarted by lack of means. It is an institution in whose hands you are always safe in entrusting your funds, and also your boys, during those "off duty" days, or hours, when time drags. When loneliness puts to the test and when temptations make their most formidable attacks.

This institution is the Y. M. C. A., and the wonderful work that is being done through this agency is far beyond the realization of most of us. Y. M. C. A. huts are being established in the army camps of our own country, as well as those of the allies, also in the prison camps of the allies, where those weary and worn boys can have an hour of relaxation, a cup of coffee, a comfortable desk at which they may sit while writing to those homefolks, with stationary and every necessity furnished, where they may also have the privilege of hearing the best music upon the graphophone, seeing the moving pictures, reading the best magazines or even taking hours of special training and study.

For this each million men will require 200 experienced workers, 500 pianos, 500 graphophones, 25,000 talking machine records, 500 motion picture machines, 1,000,000 feet of films a day, 10,000 pens a day, 25,000 chess and checker boards, 50,000 magazines a week and 1,000,000 Bibles.

To accomplish all this, and you would would have them accomplish no less, they will also most surely require your most liberal offering.

This great undertaking is to be accomplished with the gifts of loving warm hearted patriots who want our boys to have all these things to uplift them and to protect them from the moral contamination that everywhere awaits them as well as the physical dangers that threaten them.

The amount required to accomplish these things in our own country, upon the seas and over the seas, is \$35,000,000, of which Oregon's share, outside of Portland, is \$100,000. Tillamook county's share of this burden of responsibility is \$2,000. The amount has been apportioned among the various districts of the county. Will each district raise its quota? Let us take up the task with a will and see that our district does its share. What will you do? This is an individual question.

Six thousand dollars provides one of these huts, in our own land. Fifteen thousand dollars provides one over the seas. Will we provide them? Let us ask again, where are our boys? Date of campaign November 11 to 18.

You would go miles to hear Anna Case sing
"The Star Spangled Banner"
and Arthur Middleton sing
"America."

It has been proved many times in public that their magnificent voices are literally Re-Created by the New Edison and that their voices cannot be detected from the New Edison's Re-Creation of them when heard in comparison. We are very anxious to have you hear these Re-Creations. We are sure you will appreciate them.

There are many sound reproducing machines, but there is only one instrument which Re-Creates Music. It is the New Edison, "The Phonograph With a Soul."
