Traven, grand warden of the Oddfellows visited the Cloverdale lodge Tuesday evening and the Rebekah ladies proceeded to show him that while food conservation was the general order of things they could still serve a banquet that was dainty, palatable and very satisfying to the inner man. Cloverdale has had two near serious fires in the last week. Last Thursday afternoon Al Learned spilled a gallon of gasoline in front of the Mercantile Co.'s store and shortly after Richard Miles lighted a cigarette and threw the burning match into it. The flames spread so quickly that it took prompt action with fire extinguishers to put it out. The other fire occurred Monday afternoon about 5 o'clock in the Kraner block. Mrs. Cochran was rendering some lard in the oven when it became overheated and exploded. The oven door flew open and flames and smoke filled the house. The fire extinguishers were again brought into use, the hose quickly laid and the fire subdued with very little loss. Here's hoping that the third one doesn't materialize.

LIST OF CONTRIBUTORS

Nestucca Valley as Usual Does Its Bit

With a Vim.

When it comes to supporting, with its cash, any feature of the war work of this nation, the Nestucca Valley has shown, repeatedly, that it takes a back seat for no community in Uncle Sam's hat of cities, big or little.

It made this fact plain in two Liberty Loan drives, in its reply to the appeal of the American Red Cross, and to cap the climax it again gave the same answer to the appeal of the Y. M. C. A. last week.

Our quote for the territory south of Beaver was \$200, and we doubted it and then added more. To be precise, as the figures will show, we raised just \$471.50.

F. L. Owens,	

You would go miles to hear Anna Case sing
"The Star Spangled Banner"
and Arthur Middleton sing
"America."

It has been proved many times in public that their magnificent voices are literally Re-Created by the New Edison and that their voices cannot be detected from the New Edison's Re-Creation of them when heard in comparison. We are very anxious to have you hear these Re-Creations. We are sure you will appreciate them.

There are many sound reproducing machines, but there is only one instrument which Re-Creates Music. It is the New Edison, "The Phonograph With a Soul."
