Not since the department of Labor was organized have there been so few strikes in progress as at present, says Secretary Wilson. Places where cessation of work has occurred are relatively few.

In the collapse of the Chinese public stands at the Hongkong Jockey Club races Tuesday nearly 600 women and children were trampled to death. Fire broke out and several hundred others were burned to death.

Captured German airplanes brought to this country for study by aviation experts show that the Germans are using materials very inferior to the standards set for American planes and apparently are short of spruce and linen.

Recommendations by Major General Charles G. Treat, commanding the 37th National Guard division, that the death penalty be imposed to check desertions and to bring soldiers to a realization of the gravity of that offense have been disapproved by Secretary Baker.

Plans have been completed for the great enlargement of facilities for training and equipping the aerial photographic force for photographing the German trenches from the skies and keeping up to the last minute the large composite picture of the whole German front. ## YANKS BALK ATTACK

German Captain Had Complete Map of American Positions, but Sammys Upset Teuton Plans.

With the American Army in France—a plan of attack, including a map of the American positions, indicating every dugout, which was removed from the body of the Prussian captain who led the recent assault upon the sector northwest of Toul, shows how completely the Germans prepare their raids, if in fact this was but a simple raid not having as its ultimate object the retention of a portion of the salient.

The map goes into such detail as to show every trench and every depression in the ground within the American lines. At the bottom there is simply a line drawn, labeled "our front line." Along this line are five shaded portions, each marked "nest."

Four rehearsals were held for the attack, and the troops who made it were specially picked from new arrivals of fresh troops in the sector. They were told that the Americans were in front of them.

After the artillery had nearly leveled the American positions, the Germans started out from their nests, each of which contained 40 infantrymen, one lieutenant and three pioneers to precede the infantry and five to follow it. The two groups upon the American extreme right went around this flank and the group upon the extreme left carried out a similar movement there.

The two groups in the center had planned to attack directly, but the American defense changed all the plans. When they were met by the heavy machine gun fire from the American lines they saw it would be impossible to gain a footing there, changed their position and followed the other groups around the flank.

The duty of the pioneers preceding the infantry was to clean up any wire that had not been broken by the artillery, while the pioneers who followed carried large quantities of explosives for the purpose of cleaning up the dugouts.

Official reports of the interrogation of the prisoners taken by the Americans show that not all of them believed Germany would win the war. One of the men told the intelligence officers he presumed that the Americans, like the Germans, did not want to fight, but had to.

## WHEAT PRICE STILL MUDDLED

Northwest Price Is Not Yet Entirely Settled by Administration.

Washington, D. C.—The mystery of the Pacific Northwest wheat price for 1918 has not yet been cleared up, although a week has passed since the President officially fixed the price at \$2.05 and Mr. Hoover promised the equivalent of the Chicago price. The President's proclamation of last Saturday has not been altered in any way.

Food Administrator Hoover wrote Senator McNary a letter which only added to the confusion, for while seeming to assure a price at Portland approximating the Chicago price, the letter closes with an indication that such a price cannot be established until the President establishes it. In this letter Mr. Hoover says:

"I have sent out officially through Food Administration agencies on the Pacific Coast notification that the grain corporation will maintain the Chicago basic price for Pacific Coast points as long as the shipping board maintains its rates mentioned by you. I think there can be no question that this status will remain as long as the war lasts and when peace comes the rates no doubt will take care of themselves. Therefore look forward with confidence to the 1918 crop being on the Chicago basis."

The letter also seems to indicate that Mr. Hoover has never been officially advised by the shipping board of its promises to establish a rate of \$3.50 per ton on wheat and \$6.50 on flour from Portland to New York.

## Grant's Grandson Weds.

Spartanburg, S. C.—U. S. Grant IV, a lieutenant of ordnance in Camp Wadsworth here, announced Saturday that he had been secretly married here last October to Miss Matilda Bartokofsky, of New York, while he was an enlisted man at the camp. Grant prevailed on the judge who married them not to file the record. He gave his age as 24 and Mrs. Grant gave hers as 22.

## RUSSIA SIGNS PEACE TREATY WITH KAISER

Crushing German Terms Are Accepted Unconditionally.

### DEMANDS INCREASED

Bolsheviki Agree to All Hun Demands Without Least Attempt at Argument—Hostilities Cease.

Berlin, via London—"By reason of the signing of the peace treaty with Russia," says the official communication from headquarters Sunday night, "military movements in Great Russia have ceased."

The Germans in their advance through Russia have captured, according to the official communication from general headquarters, 6800 officers and 57,000 men; 2400 guns, 5000 machine guns, thousands of motor vehicles, 800 locomotives and thousands of railroad trucks.

Petrograd—In the fear that argument would result in even more onerous terms, the Russia delegation at Brest-Litovsk has accepted all the German peace conditions, according to a telegram from the delegates received Sunday at the Smolny Institute.

The demands already have been increased, they reported.

The message, which was addressed to Premier Lenine and Foreign Minister Trotzky, follows:

"As we anticipated, deliberations on a treaty of peace are absolutely useless and could only make things worse in comparison with the ultimatum of February 21. They might even assume the character of leading to the presentation of another ultimatum.

"In view of this fact and in view of the Germans' refusal to cease military action until peace is signed, we have resolved to sign the treaty without discussing its contents and leave after we have attached our signatures. We, therefore, have requested a train, expecting to sign the treaty immediately and leave afterward.

"The most serious feature of the new demands, compared with those of February 21, is the following: To detach the regions of Karaband, Kars and Batoum from Russian territory on the pretext of the right of peoples to self-determination."

## MEATLESS MEAL DISCARDED

Only One Meatless Day a Week Now Order of Food Administration.

Washington, D. C.—Temporary suspension of the meatless meal and of the special restrictions against the use of pork on Saturday was announced by the Food Administration Sunday as a readjustment of its food conservation program. Increased meat production and the necessity for still greater saving in wheat, it was declared, make the change advisable.

The suspension is made effective for an indefinite period, and it probably will last for three months or longer.

Since all restrictions on consumption of mutton and lamb had been lifted previously, the Food Administration now asks the public for the time being to deny itself in meats only beef and pork one day a week—Tuesday.

Increased meat consumption, Food Administration officials believe, will of itself curtail the use of wheat, and for the present there is no intention to add to the restrictions already in force against the use of flour.

In a statement setting forth the reasons for the change, Food Administrator Hoover said the allies have made further increased demands for breadstuffs.

Reichstag Deputy Turns On Junkers. London—The German government's "infamous war policy" was assailed in the reichstag in the course of Friday's debate by Herr Vogtherr, an Independent Socialist, according to Berlin advices sent from Amsterdam by the Reuter correspondent there.

## Women Patrons of the Bank

A few years ago, there were practically no women who were patrons of the Bank. Now, however, women recognize the service of the Bank as one of the aids in handling household and personal money affairs. The progressive woman deposits allowances for home expenses and pays all accounts by check. The result is that her money is always safeguarded against loss by fire or burglary and her money goes farther because of the systematic way in which it is handled.
