HOOVERIZE ON YOUR TALK.

Finding that Oregon communities are being fed up on falsehoods of various kinds, that the people here as elsewhere are repeating these stories for truth and are thus creating a morale that is injurious to the cause which brought the United States to declare war on Germany, the administration at Washington is asking the people of this state to refrain from passing judgment on the way the war is being won, or from saying and doing things that will destroy confidence.

A favorite story is to the effect that food and supplies gathered and sent forward to soldiers are being diverted; that articles are being sold and the money not accounted for. All such statements may be branded as false. In Portland more than 20 such rumors have been traced down and found to be unfounded.

They were probably by German agents.

Don't believe rumors that are peddled about surreptitiously.

All war news will be given out at Washington.

Don't talk too much anyway.

AND WE WILL.

"We have got to win the war, no matter what the cost, and the pity is that so many people do not realize this". So spoke William Livingston, of Detroit, Michigan, president of the Lake Carriers' association, who is in Washington. "If winning the war makes necessary inflation of the currency, then inflation of currency must come.

"There is too much indifference among many men about the war. A little while ago I went to a business man, who is worth millions, and asked for a contribution of \$1,000 for the relief fund of a certain organization. He replied that he was not interested. I argued, but he was obdurate. That man is a representative of a large class in this country—some of them born abroad, but all of them owning property in the United States. Men say 'the government will take care of the war', and apparently do not have the slightest appreciation that the government is the people. We have got to wake up,

because we have got to win the war at whatever cost!"

RUDYARD KIPLING AND THE WAR.

Since the war opened, Kipling has not been heard of very much by his own people. But he is waking up. He is making speeches which indicate his fervor and enthusiasm in the belief that the safety of the world demands the defeat of Germany. In a recent speech he said the world is fighting "to make an end of German international thuggery, for the reason that if it is not ended life on this planet will become insupportable for human beings." He said:

"We are fighting for our lives, the lives of every man, woman and child here and everywhere else. We are fighting that we may not be herded into actual slavery, such as Germans have established by force of arms in large parts of Europe. We are fighting against eighteen hours a day of forced labor under the lash and at the point of the bayonet, with a dog's death and a dog's burial at the end of it.

A German victory, he said, and again with entire truth, would mean that "every relation, every understanding, every decency upon which civilization has been so anxiously built, will go, will be washed out, because it will have been proved unable to endure."

Local Food Administrator for Tillamook County.

NOW LISTEN

The restrictions which have been in force concerning the use of meat have been modified for the state of Oregon and for the present the only restriction as to the use of meat is that Tuesday will be a strictly porkless day. There will be no other restriction on the use of meat of any kind whatever.

Accompanying the instructions regarding the removal of restrictions on meat products, comes a more urgent appeal to save wheat. One of the principal reasons for removing the restrictions on meat is in order to enable the people to save wheat to a greater extent than they have been doing.

Reports coming from commercial travelers show that many eating places in this county are acting in total disregard of the meatless and porkless day programs. With the one day restriction on pork this matter should be very simple and the restrictions concerning the use of wheat and sugar should be strictly observed. All retail dealers who sell to restaurants and boarding houses have been required to take out a license from the food administration at Washington, D. C. Any dealer, without having applied for a license, sells any licensed product to any hotel, restaurant or boarding house is subject to a heavy penalty.

Robert H. McGrath, the Local Food Administrator for Tillamook County, says that if the restaurants in this county continue to disregard the rules concerning the use of wheat and pork he will forbid the retailers to sell licensed products to restaurants so offending.

In order that there may be no misunderstanding of the matter the following rules which have been adopted by the Federal Food Administrators of the States of Oregon, Idaho, Washington, California and Alaska are published.

Tuesday is porkless day. Conserve

ham, bacon, lard and lard substitutes at all times.

Monday and Wednesdays are wheatless days and the evening meal of each day is a wheatless meal.

In public eating places (including boarding houses) the service of victory bread or rolls, containing one-fifth of substitutes and pies, pastries, cakes and sweet yeast doughs containing at least one-third of substitutes is required at all meals, and will be permitted on wheatless days and at wheatless meals. It is urgent, however, that bakers and caterers follow the government's recommendations as to increasing the percentage of substitutes in bread and rolls served on wheatless days and at wheatless meals. Noodles, spaghetti, macaroni, wheat cakes and breakfast foods made of wheat are not permitted on wheatless days and at wheatless meals.

The portion of bread or rolls served should consist of not more than two ounces and not more than this quantity should be served to anyone at any one meal.

Rolls should not weigh more than one ounce each.

When corn, oatmeal or bran bread or rolls are served alone, without any victory bread being served at the same time or to the same person, the portion may consist of more than four ounces.

Crackers containing the same amount of substitutes as victory bread may be used the same as victory bread and served at the meals when it is permitted.

Keep sugar bowls off the table except when required for use by the guests and limit sugar service to three cubelets or two medium sized lumps or an equal amount of soft sugar.

Encourage consumption of potatoes by charging the smallest possible price, making them free if possible, and serving extra large quantities, but guard against waste. Use as large proportion of potatoes in bread making as possible.

Mr. McGrath calls the attention of all retailers who propose to sell to restaurants to the necessity of applying at once for a license. As stated above all retailers who sell to restaurants, hotels and boarding houses without having applied for such license are subject to a heavy fine and imprisonment.
