

### WORTH KNOWING

The development of water power in Norway has made electricity cheaper than steam in that country.

Platinum deposits recently discovered in Spain are believed to be greater and richer than those of the Ural mountains, which furnish the greater part of the world's supply.

Lathe tools made of alloys of cobalt with chromium and other metals have been found to work satisfactorily at speeds greater than is possible with tools made of high-speed steel.

### Garden Hose Restores Vision.

Garden hose, at full pressure, restored a man's sight at San Rafael, Cal., recently. The man, Charles Brown fell 40 feet from the roof of his home. Neighbors turned the garden hose on his head as a first aid measure and after an examination Brown was found to be the better instead of the worse for his tumble. His vision was completely cured. He is wondering whether it was the fall or the garden hose that was responsible.

### History of the Louvre.

The Louvre was originally a royal residence. Napoleon turned it into a museum and deposited in it the finest collection of paintings, statues and art treasures known in the world. Many of those brought from Italy have been restored to their rightful possessors. The magnificent buildings of the new Louvre, begun by Napoleon I and completed by Napoleon III, were inaugurated in 1857.

### HELPING PAPA.

"Ah!" sighs the enamored swain, as the taxicab rolls smoothly and swiftly on its way. "If we might ride on thus forever together! Would it not seem heavenly to you?"

"It might be very nice," calmly responds the beautiful creature. "Papa owns a half-interest in this taxicab company."

### Keep After Things.

Do you remember when you learned to swim, or ride a bicycle? You went to it for all you were worth, but you couldn't get the hang of it. Then, a few days afterward, you tried again and it "came to you" first thing.

But it wouldn't have "come to you" if you hadn't "gone to it" that other time. The effort which seemed to be wasted at the time you made it wasn't wasted after all. You will find it the same with learning how to think. If you can't keep your mind on the subject tomorrow morning, keep on trying till the half hour is up. The next morning you'll do a little better, and you'll surprise yourself within a few weeks.—Exchange.

A little thing like being under fire can't stop them from taking a chew of Gravely!

### When He Gets that Pouch of Real GRAVELY Chewing Plug You Sent Him

A man's first impulse is to share a good thing. Real Gravely Plug has been spread all over America simply by the Gravely user offering a small chew to his friends. Tobacco like that is worth sending. It means something when it gets there.

Give any man a chew of Real Gravely Plug, and he will tell you that's the kind to send. Send the best!

Ordinary plug is false economy. It costs less per week to chew Real Gravely, because a small chew of it lasts a long while.

If you smoke a pipe, slice Gravely with your knife and add a little to your smoking tobacco. It will give flavor—improve your smoke.

SEND YOUR FRIEND IN THE U. S. SERVICE A POUCH OF GRAVELY

Dealers all around here carry it in 10c. pouches. A 3c. stamp will put it into his hands in any Training Camp or Seaport of the U. S. A. Even "over there" a 3c. stamp will take it to him. Your dealer will supply envelope and give you official directions how to address it.
