Have You Sent any Home Pictures to the Boys over there? If not you're denying them a great pleasure.

Why not come in and let us show you our line of
CAMERAS AND KODAKS
Prices from 75c Up.

WM. A. HIGH
DRUGGIST AND KODAK DEALER
Cloverdale, Oregon

BLIND MAN ENJOYS FLIGHT

Appreciated the Thrill of Intricate Aerial Maneuvers Performed by Experienced Pilot.

Thomas D. Schall, the blind congressman from the Tenth Minnesota district, made flights with Col. Charles Lee of the British royal flying corps in Washington recently. It was the first time he had been up in an airplane.

Congressman Schall was not satisfied with the plain "joy ride" Colonel Lee had given him. When they returned to earth after circling over the city at an altitude of about two thousand feet, the blind representative asked for more thrills.

"Fine! Fine!" he exclaimed, as the machine came to a halt. "But, Colonel Lee, if you wouldn't think me a nuisance, I would like to go back up and turn over."

The biplane was wheeled into position again, and off it shot on a trip of real sensations. Climbing rapidly to about two thousand feet, Colonel Lee started the machine into a series of dips and dives, spirals and other aerial antics calculated to make one's hair stand on edge. To complete the thrills, the airplane was made to roll over sideways and then drop into a beautiful nose spin.

The passenger's sightless eyes were blinking with delight, when his wife ran onto the field to assist him from the machine.

We have often quoted that old verse, "Gather your roses while ye may," and we can well now change it to "gather your vegetables," for by so doing we can accomplish great good.

Wartime Footwear in Holland.

The manufacture of slippers with wooden soles and cloth tops is a wartime industry which has sprung up in Holland, reports the United States department of commerce. The upper and inner parts of the slippers are formed of twill, corduroy and woolen stuffs. All these materials are relatively cheap, and yet make comfortable and durable slippers. The cloth parts are made by hand and the wooden soles by machinery.

In view of the mounting prices of leather footwear, these combination slippers, which retail for the equivalent of \$1 a pair for the best quality, are selling rapidly. It is claimed that they are entirely satisfactory for wear in the home and are practicable for women engaged in indoor occupations.

Government Finds Fathers.

The death rate among children born out of wedlock is notoriously and universally far higher than that among legitimate offspring. In the borough of Hampstead, London, it is 197 as against 60, and in New South Wales it is 162 against 67. Norway, however, has reduced the death rate to normal through the government assuming the responsibility of finding the father or of acting the father in case he cannot be found.

WOODS ITEMS.

Mrs. Foster and daughter returned home last Friday, to McMinnville. They have been visiting Grandma Wood for a few days.

Mrs. Belding has nearly finished the repairs on her house and has returned to her home, in Eastern Oregon, for harvest time. The house will be painted in her absence. If a few more people would recover and paint their houses in Woods it would be a more attractive looking place.

Mr. Weidner took his father, who has been visiting him for a few days, to Portland last Friday.

Byron Randall is making a flying trip to Portland in the interests of the L. L. L. L. and will stop with his wife at Newberg over the Fourth.

Uncle Sam wants two more of our boys here which are Arthur Edmunds and Sydney Fisher. If they are placed in class one they will be called some time this fall.

Adam Babcock while on his way to Tillamook as witness in the Government case, was quite seriously hurt, not far from Hebo. The morning seemed to be an unfavorable one, for the Tillamook stage gave out near Woods and the machine that replaced it a few miles farther on and the third machine had picked up the passengers to take them on to Tillamook and was speeding up at too great a rate to gain lost time. It struck a boulder on one side of the road, throwing Mr. Babcock on his head and shoulders on a pile of rock. He was unconscious most of the way to Tillamook and upon arrival was taken to the hospital. However, within an hour he appeared at the court house to answer his call.

Dr. Montgomery and Mr. Fisher also made a trip to Tillamook with Mr. Yarns, of Amity. They speak very highly of his new model Reo car, although there were eight people in the car it made the grades as easy as though empty.

The mill company are building a new house for Lea Shrader, who expects his family to join him there soon.

We regret to state that Mr. and Mrs. Kennedy are going to move to Portland.

The Montgomery Northrup band spent a very pleasant day at Oretown church last Sunday. They are to be at Hebo next Sunday night.

Our genial post master, Mr. Deuel, was a Tillamook visitor Sunday, bringing back with him his sister and her husband whose home has been in Montana.

Some day the Kaiser will spring an unexpected peace proposal and if America is not wide awake, will win another great drive. The Allies ought never to

The New
GRANT SIX
Now Coming

This is the largest and finest car that ever carried the GRANT SIX name plate—a car that is without real competition in its Price class.

The individual beauty of its lines, its unusual size and its extraordinary mechanical refinement, will make this new model one of the most talked of cars of the coming season.

Its powerful, flexible and remarkably smooth-running engine is of the overhead valve type with balanced crankshaft, forced-feed oiling and many other advanced features.

W. KUPPENBENDER

Tillamook, Oregon

consider peace until the German people show the right spirit by turning the Kaiser and his advisors of frightfulness, as prisoners of war, over to the allies. Then there might be some hopes of permanent peace for the world.

Gene Kirkwood has gone to the valley to spend the Fourth.
Mr. Beals is building a new store on the camp grounds.

FRANK TAYLOR,
Notary Public
Cloverdale, Ore.

Clough's Carbolic Compound

For disinfecting where Contagious or infectious diseases are prevailing.

CARBOLIC COMPOUND is a powerful Germicidal mixture and by its use will improve general stable conditions.

CHAS. I. CLOUGH,

Reliable Druggist, Tillamook, Ore.

PLAN ACTIVE WAR ON PESTS

West Indian Sugar Planters Seek Aid of the Lizard and a Species of Fungus Growth.

Lizard farming and fungus cultivation are means adopted in the West Indies to protect the sugar industry. It has been discovered that the frog-hopper (Thomaspis sacharina), so-called on account of its great leaping powers, is the greatest pest of the sugar cane, and that it multiplies by thousands on single plants, sucking the sap from roots and leaves. In the last three or four years two remedies have been developed. F. W. Ulrich, a West Indian entomologist, has demonstrated that lizards devour great quantities of the immature hoppers, and J. B. Rorer, a United States mycologist, has shown that spores of the fungus known as "green muscardine" are peculiarly fatal to the adults. As part of the work to save the cane, war has been begun in Trinidad, where the investigation has been made, against the rapacious mongoos, which has made lizards scarce. In addition, hundreds of lizards are collected in a protective enclosure, and are encouraged to multiply under favoring conditions of sand banks for burrows, with an abundance of food and water. The fungus is grown in test-tube cabinets, which produce spores that are dusted over the cane fields by special distributing machines.

By eating more perishables here at home we may save others from perishing "Over There."
