HARVEST AT WALLA WALLA PEACE SMASH OF Hot Weather and Winds Rapidly Ripen Fields of Grain.

Walla Walla.—Temperature of close to 100 degrees in the field, with a north wind blowing, has rapidly ripen-Northwest School l'urniture Co., 244 3rd ed the wheat this week and many out-t. Everything for schools. Also theatre hairs, church furniture. Folding chairs fits will take the field to commence harvest. The lack of rain in the last few weeks has prevented the grain from filling out. This is especially true of spring grain.

Estimates made by farmers are that the yield will be about the same as last year for spring wheat or possibly a little less.

Fall sown wheat will yield fairly wheat harvested in the valley, but the grain will not be as well divided among the farmers as last year, when nearly all obtained a good percentage of their crop. This year spring sown

grain was badly pinched. By the last of this week the harvest will be well started, it is believed.

well, however. There will be lots of President Believes Germany Willing to Give Up on West Front If She Can Get Control of Russia.

> Washington, D. C.-Germany's latest peace offensive, the crest of which has apparently been reached in the speech of Von Hertling before the main Reichstag committee has apparently caused only a slight ripple of interest in the official world here.

Team work on the part of Austria is indicated in an official dispatch Sunday from Switzerland, which says reports of the repulse by allied legations in Berne of an alleged Austrian peace emissary have been confirmed by the Journal of Geneva.

According to the reports, an Austrian from the pacifist party of Professor Lammasch presented himself at several legations of the allied powers

Professor Lammasch on several former occasions is said to have made peace overtures to representatives of the allied countries.

No official cognizance is being given here to the latest peace speech of German Chancellor von Hertling. The chancellor's statement that his

willingness to discuss peace was shared by the chief of the army administration was regarded as the first peace expression attributed to the military leaders. More definite peace proposals from the German government would not be unexpected.

President Wilson is known to believe that Germany is bent on gaining all the proper functions, builds up and control of Russia and would willingly invigorates the entire system, and regive up everything on the western stores health and strength. front to accomplish that purpose.

President Wilson Declares Farmers' Loyalty Is Above Price.

Washington, D. C.-In vetoing the \$28,000,000 annual agricultural appropriation bill because of its amendment fixing the government guaranteed minimum wheat price at \$2.40 a bushel the president informed congress that he did not believe the farmers of America "depend upon a stimulation of price to do their utmost to serve the nation and the world at this time of crisis.'

The president said the patriotic spirit of the farmers has been "worthy of all praise and has shown them playing a most admirable and gratifying part in the full mobilization of the resources of the country."

He added that the bumper crops they have raised this year have rerayed against Germany with regard to their food supplies.'

Congress was informed that the president did not believe that such inelastic price provisions as contained way that would be advantageous to the producer and consumer, because they established arbitrary levels which are quite independent of the normal market conditions.

prices, he said, has been entirely satisfactors and should be continued.

A fixed minimum price of \$2.40 a bushel, the president said, would increase the price of flour from \$10.50 to \$12.50 a barrel and would put an additional burden of \$387,000,000 this year on the consumers.

Such an increase in price, he said, would force a similar increase in Canada, thus enlarging the whole scale of financial operations in this country by the allied governments and affecting late liver, bowels and stomach. practically the entire world.
