THE STICKING QUALITY

TAKEN as a whole, Eagle Valley business men are not getting rich, and by business men we mean farmers as well.

To be sure now and then one of them manages to secure enough of the "roast" to retire in comparative comfort but there is no danger of a second John D. Rockefeller being created here for Eagle is not that kind of a place.

What is made here is made by sticking, hammering away at the seemingly small things of life until by dint of hard labor, competence has been scored, red and after all it is not so bad for we consider that many a man in those famous resorts of wealth or more literally speaking "at the backdoor of plenty" and actually living, is as well off as the Eagle.

The principal feature of success at the small things is the ability to pull together and as a general rule, we are pretty good pullers, but in some cases this quality is strangely lacking.

The merchant, the farmer, the laboringman, all of us go to make up a community of happiness and small success. It is to their natural advantage to stand shoulder to shoulder in the fight and keep as much as possible of Eagle resources at home. Every dollar spent in helping a foreign enterprise is a dollar taken away from home industries or that go to make up the homesuc-

cess and after all to those who love their home, this is the all-impinging fight.

SPARKS

Once more, Coppertopf has escaped its toll of crime and turned toward the days of yore as high time there was no Copperfield to act in this unlawful manner.

EAGLE VALLEY SHOWED THIMSELF to be a first rate baseball town Saturday and Sunday and in spite of pessimistic statements that the boys could not make expenses on the game, they did so and are heartily thankful for the support given them in making a success of the first games played with an outsider in years.

The idea that Eagle would hold a Harvey Home Carnival this year seems to have made a favorable impression on one or two.

There seems to be a sort of general knowledge that when Eagles are entertaining there will be a real entertainment. That's the reputation we have built, now let's live up to it.

We would like the worst way to hand it back to our sister valley as at the celebration the people are going to hold there this year making people like the valley bet-

ter, however it is not the fault of the largest portion of Fine Val-
ye people, for they have an fine

ability to put anyone up for a bear.

But the fact is that the bills that had been made to move the sale out of the place had been tol-

ded it only to the door when they were evidently frightened away leaving it there. The gained entry through a window.

The K. of P. Hall is now ready for the painters,

Omer Kessell was the only one from Richland to take the P. O. examinations, he went to Baker for this purpose on Friday returning Saturday.

Council Proceeding

The City Council met in reg-
ular session Tuesday evening and the following business was transacted: Motor speed and Con-

trol Ordinance passed by a unanimous vote. Captain Craig was instructed to impound every dog on which licence have not been paid and after twenty four hours to put the same to death. Council adjourned. Two notices of the new soad ordinance have been posted and if hunted for long enough may be read by the people who are interested.

Delightful Party

The regular business meeting of the Episcopal League of the Methodist Church was held at home of G. B. Saunders on Fri-

day night. A joyful time was had playing games after which dainty refreshments were serv-
ed and the guests departed for their homes hoping that many more such enjoyable evening might be their pleasure to enjoy.

The new windows in Frank Clark's Confectionary have greatly added to the attractiveness of the store.
