500 BEEF CATTLE

The round-up which closed the last of last week succeeded in collecting about 500 head of prime beef cattle. The hills for miles about were scoured for the fat ones and this is the final outcome. The cattle thus gathered represent in money about \$25,000 and are one of the wealth producers of our valley.

Lloyd Parker paid a brief visit to his old home in Eagle, Sunday returning to Halfway the same day.

PROPOSED K. OF P. IMPROVEMENT CLUB

The K. of P. Improvement Club, and we might say amusement club as well, is not as yet a realized fact, but it is a movement that some of our most conscientious and law abiding citizens are now working on. It is the dream of to-day that may be the reality of to-morrow. In a few words this club would furnish amusement of a clean, moral nature for old and young alike and would also in the opinion of its instigators, be a powerful influence toward morality and better living in our community, not, mind you, that our home is such a terrible place for vice and that sort of a thing, it is perhaps as good as most places, but it needs like other places, an uplifting influence.

The Knights of Pythians have for some time had this club in

their minds eye, so to speak, and expect to work toward the fulfillment of their desire for a real social club. This club would be a free attraction to members of the lodge, to those who are not members, it would be made as inexpensive as possible. In the idea of the founders it would comprise a billiard room and reading parlor where young and old men could go and enjoy a sociable evening, now and then as chance developed there might be a lecturer, who would give an informal talk, or a general discussion of some important topic by the members. In this club, all forms of vulgarity and crude language would be frowned upon, while having no physical punishment for violations, those who were interested would not do this and naturally those who did in-

dulge in profane and vulgar talk would find it an uncomfortable position to occupy. Printed rule would be placed on the walls where everybody could read and in case of violation, in most cases it would only be necessary to point to them to stop this, however if one would continue in face of this to resist the rules as laid down, a gentle hint that such was not wanted would with out doubt put a stop to it. This club would be almost ideal if the policies could be carried out, and no doubt they can, it would be a pride and joy, for our town and valley. Outside people coming into our town could be invited to the club and there spend a pleasant evening that otherwise might have hung heavy on their hands. By all means we say, let's have it.
