Frank Hopkins, pastor.

STATEWIDE PROHIBITION MEANS

BIGGER TAXES

THEY'RE TOO BIG NOW!

Vote 333 X NO Against Prohibition

Register before Thursday, October 15

Voting qualifications: Six months' residence in the state, 30 days in precinct

Defeat of the proposed prohibition amendment will have no effect upon the efficient home rule or local option statutes now in force, and each community will continue to determine its individual stand on the matter of granting licenses.

Bleeding Kansas Still Bleeds!

A steady stream of money—the life-blood of a state—pours from "model prohibition" Kansas into License states!

The Topeka State Journal, a supporter of Prohibition, on July 8, 1913, published the statement that approximately

1,500,000 QUARTS OF LIQUOR

were legally shipped into the state of Kansas each year.

Kansas got no revenue—other states got the money!

Should we place Oregon near the bottom with Kansas?

Prohibitionists like to talk about Kansas. They say it has been dry for 34 years and has made a record.

Has it? Kansas Prohibition is what sent Carrie Nation on the warpath with her hatchet. It was in Topeka, Kansas, that Mrs. Nation opened her home for the wives of men who got drunk on Kansas Prohibition liquor.

Yet Prohibitionists tell us that as the capital city of dry Kansas, Topeka is a model.

Rev. Robert Gordon, pastor of the First Baptist Church, Topeka, who has been a Prohibitionist all his life, said from his pulpit: "There are 140 joints in Topeka where intoxicating liquor is sold."

To prove it, he went out and bought a keg of beer, two cases of bottled beer, a suitcase full of whiskey, and all the gin and wine he could carry.

That is what the Prohibitionists themselves tell us about Kansas.

Dry Kansas ranks 32nd in per capita bank resources.

Dry Kansas ranks 43rd in per capita savings bank deposits.

Dry Kansas has more inmates in her prisons in proportion to population than 24 other states.

Dry Kansas has a greater proportion of juvenile delinquents than 25 other states.

Dry Kansas has a greater proportion of feeble-minded than 31 other states.

Dry Kansas has a greater proportion of homicides annually than 22 other states.

(Figures from U. S. Census, Federal or other Official Reports)

Government statistics show that Dry Kansas has the lowest church enrollment of the North Central States. Only 28.4 per cent of her population is enrolled as church membership.

Wisconsin, a wet state in the North Central group, has a church roll of 44.3 per cent.

Dry Kansas buys great quantities of Bitters and Home Remedies. Government reports show these nostrums contain an average of 35 to 40 per cent alcohol.

Analysis of a favorite "nerve tonic" showed two grains of opium and 75 per cent of grain alcohol to each fluid ounce.

Patent medicines are always popular in dry states; above is the reason.

Do you, as a loyal Oregonian, want to see your state held up like this to the nation's scorn?

Records of County Clerks, Express Companies and Railroads in Kansas show that Kansas consumes just as much liquor under Prohibition as it did when it had legally licensed saloons. The state now gets no public revenue from this liquor. The "blind-pig" and the "boot-legger" have taken the place of the regulated saloon and ply their illicit trade in alleys and under cover of darkness.

Defeat of Prohibition will not change the present Home Rule or Local Option Law
