## BEANS! BEANS! BEANS! How Much Do You Want?

The call now is "plant beans." It is said the demand for them this fall and winter will be the greatest ever known.

A bulletin issued by the O. A. C. and U. S. department of agriculture cooperating, has issued a bulletin on this hardy, prolific and important vegetable, a portion of which we give below:

Beans may be used in many forms and contain high percentage of heat calories. This vegetable will stand much abuse and like most plants will give abundant returns for good care and cultivation.

The stringless (string) bean bears in abundance and is easy to can. One of the best varieties is Burpee's Stringless Greenpod.

For successional pickings three plantings should be made in the season. One at this time, the second in three or four weeks later and the third about the first of July. Kentucky Wonder is a good late variety, and Dickenson's Yount bears pods of unusual length in great abundance.

The Oregon Pole Lima is one of the best acclimated butter or lima beans, is very hardy and makes a good growth even in the coolest summers. It is recommended to those who want a good winter lima.

Beans planted for canning purposes and for picking green will respond well to applications of manure to the soil. Also it is desirable and important that the vines have plenty of moisture, otherwise the beans will not be so brittle and tender.—A. G. Bouquet, Head of Vegetable Gardening, O. A. C.

From our exchanges we note there will be a great increase in the amount of ensilage put up this season, and from all indications it would be a wise plan for every farmer in Eagle Valley who has land that will grow corn for ensilage to figure on filling a silo this fall. It is as cheap and good a feed for cattle and sheep as can be grown, and will keep indefinitely.

### Rheumatism.

If you are troubled with chronic or muscular rheumatism give Chamberlain's Liniment a trial. The relief from pain which it affords is alone worth many times its cost. Obtainable everywhere.

The following telegram is self explanatory and if you wish some of the bonds you should call on Mr. Herr:

Washington, D. C. 5-3 17.  
Eagle Valley State Bank,  
Richland, Oregon.

Government will receive subscriptions until June 15th for \$2,000,000,000 three and one-half per cent Liberty Loan. You can render invaluable service to your country by receiving subscriptions and co-operating with Federal Reserve Bank in your district. Will you kindly do this? Telegraph me government expense soon as practicable, rough estimate amount of bonds you think will be subscribed by you and your customers.

W. G. McAdoo, Secy. of Treasury.

The Secretary of the Department of the Interior informs us that the National Parks will be open to visitors the same as usual this season. Thanks.

\$3,000,000 is to be raised by the nation for the support of the Army Y. M. C. A., and of that amount Oregon and Idaho are asked to contribute \$60,000.

### \$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Catarrh being treated by Chamberlain's Catarrh Remedy. This medicine is taken internally and acts upon the mucous membrane of the system, thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and acting upon the system. The proprietors have no much faith in the curative powers of Hall's Catarrh Remedy that they offer One Hundred Dollars for any case that it fails to cure, and for a list of testimonials, Address P. I. CHENEY & Co., Toledo, Ohio. Sold by all Druggists, etc.
