Have You Heard? The Latest Style?

GILDED FURNITURE is very fashionable NOW. Some are handpainting or decorating it with transfer pictures.

Maybe you have several such pieces that a coat of Chi-Namel Gold and Aluminum will transform into the very latest popular fashion.

Chi-Namel is totally different from the usual ill-smelling banana flavored bronzes that are difficult and unpleasant to apply.

Chi-Namel has a pleasing odor and looks like the most expensive gold and silver leaf and is so easy to apply.

It makes a beautiful, bright finish for Radiators, Pictures and Mirror Frames, Bric-a-Brac, Wicker Work, Pipes, Lighting Fixtures, Grate Fronts, Stoves, Hot Water Tanks and Heaters. It is heatproof and prevents rust.

Chi-Namel Aluminum is used extensively to protect and beautify Automobile Engines and Rims and either gold or aluminum makes a radiator front very handsome and stylish and at the same time prevents corrosion.
