**A Sailor Writes.**  
San Diego, Calif., Oct. 21, '17.  
Dear Friend: I am now at San Diego but expect to move again before Xmas. I have attended K. of P. Lodge here several times; they have a magnificent hall and a big membership and the Lodge certainly does their part to help entertain the sailors and soldiers by giving a dance or social every week for us boys. Remember me to all the boys and tell them that I will be back when we get through with Kaiser Bill, but not until then.

**Christmas Mail for Soldiers**  
With the approach of the holiday season, special attention is being given to the delivery of Christmas mail to enlisted men serving abroad. Arrangements have been perfected by the Navy, War and Post Office departments whereby Christmas mail to the American expeditionary forces in Europe and to the crews of U. S. naval vessels serving in European waters will be delivered by Christmas morning. This mail must be posted not later than Nov. 15th and each package must bear conspicuously the words "Christmas Mail" and must be so packed and wrapped so as to admit of easy inspection by the postmaster for no package will be dispatched to Europe which has not the postmaster's certificate that it contains no prohibited articles.

#### Bulletin on Irrigating Grain.

The U. S. department of Agriculture has just issued a new Farmers' Bulletin No. 863 entitled "Irrigation of Grain" which will be of interest to Eastern Oregon farmers. A copy may be obtained by dropping a line to Hon. N. J. Sinnott, Room 242 House of Representatives, Washington, D. C. Send for a copy.

Hereafter the rate of postage on letters will three cents per ounce or fraction thereof, instead of two cents as heretofore. Drop letters for city or rural delivery will be two cents per ounce. All post cards will also be two cents.

#### Concerning the Size of the Earth.

In the American Magazine John Brashear, the famous astronomer and scientist, says:  
"Most folks consider this old world a pretty big place, but if you tossed a cube one-seven thousandth of an inch in diameter into Lake Erie it would occupy the same relative space in that great inland sea that our earth occupies in a universe terminating at the nearest star, Alpha Centauria, and extending a similar distance from our sun in all directions. Such a universe contains 15,625,000,000,000,000,000,000,000,000 (fifteen thousand six hundred and twenty-five undecillion) miles, but it is only an infinitesimal dot in the actual universe."

**Unappreciative.**  
"Carlyle was a great thinker. You can't turn to a single page without finding some gem of thought. Here, for instance, he says that there is strength in cheerfulness."  
"So there is in cheese."—Exchange.
