

The Little Tots' Favorite

H.O.

The children prefer "H. O." because it is the oatmeal with the tempting flavor. It makes sturdy little bodies and keen quick-thinking brains--as it contains the properties that make energy and tissue in just the right proportions. "H. O." is more nourishing than meat or eggs, and can be prepared in only 20 minutes. Do not accept ordinary oatmeal or rolled oats, when you can obtain "H. O." At all grocers.

VAUGHAN'S PORTABLE DRAG SAW

FOR HOME WORKER

Attractive Hats May Be Made by the Amateur.

Bead and Jet Ornaments in a Wide Variety, Are Being Used by Milliners This Season.

Two charming hats, either of which might be fashioned by the home milliner, are illustrated here. The larger of the two hats has a brim of velvet and crown of soft felt embroidered in chenille in contrasting colors. The brim might be of black or dark brown and

Hats That May Be Made at Home.

the crown a gray or soft tan, with flame-colored chenille for the necessary color contrast.

The smaller hat, made of black or navy blue velvet, is an excellent model to select for wear with one of the serge or gabardine street dresses so fashionable now. The soft crown is surrounded by a rolled brim which is covered over with jet nail heads.

Nail heads were extensively used as millinery and dress trimming several years ago, and they have never been entirely relegated to oblivion, especially in millinery. Practically every season some ingenious milliner develops a few models with nail head trimming, and for the fall and winter of 1917-18 they are generously exploited.

Head and jet ornaments in a wide variety are being used this season, and applique embroidery is also a millinery feature.

The service hat of the American soldier is shown made up in velvet and in taffeta for sport wear.

For the first fall wear many women wisely select a small feather toque, and unusually good looking ones are to be had this season.

Rather tall hats are to be popular for fall and winter; but more often than not this towering effect is the result of trimming arrangement rather than actual height of the crown.

FOR THE DRESSING TABLE

Combined Pincushion, Watchstand and Hairpin Tray Is Found to Be Useful Article.

This is a useful article for the dressing table in the shape of a combined pincushion, watchstand and hairpin tray. It can be made from a large cigar box of the shape indicated in diagram A, on the left of the illustration. One end of the box is removed cut down and fastened across the center of the box in the position marked by the cross, with tiny nails run through from outside. The portions of box indicated by the dotted lines are cut away, and the lid is nailed on in an upright position at the opposite end.

The wood is next neatly covered with cream colored watered silk, the material being turned over at the edges

Useful Article for Dressing Table.

and fastened on just inside and underneath with a strong adhesive. The portion of the box that forms the pincushion is filled with bran (or sawdust), and covered in at the top with velvet, and the whole thing is edged throughout with a pale pink silk cord. For suspending the watch a small brass hook of the nature shown in diagram

B is screwed in in the center, near the top at the back.

This little article would be useful also upon the writing table, and the tray in front could then be used for holding odds and ends instead of hairpins.

AND NOW THE PETTICOCKER

New Undergarment Designed for Women Who Dance, Skate or Engage in Active Work.

A new undergarment of silk jersey, designed for women who skate, dance or do active war work, has been named the Pettibocker and combines the features of both petticoat and knickerbockers.

The bloomers are gathered on an elastic at the waist, cut extra full, and with cuffs also gathered on elastic bands. They are long enough to reach below the calf of the leg, but should be worn directly below the knee.

Several inches above the cuff of each leg a founce is attached, slightly gathered, but so put on as not to interfere with the width of the bloomers at that point.

The founces are designed to react the hem of the outer skirt and eliminate the necessity of a petticoat, even when the outer garment is of sheer materials. As the founces are attached above the elastics, they will be pulled up just as the outer skirt is pulled up when the wearer is sitting, instead of showing beneath as did the founces of the old "tango garters."

DAINTY AND SIMPLE

If this model be a fair criterion, the fall styles will be marked by simplicity and good taste. The simplicity is not extreme, though, for the distinctive collar and belt contrast well with the dominant note in the dress. They are trimmed with one-inch bands of navy serge, while the dress itself is of sand-colored serge. The bodice is simple and so are the sleeves. The skirt possesses the wide box platts that go with most smart frocks.

COLLARS AND CUFFS ALIKE

Innovation Due to the Recent Vogue for Plain Tailored Serge and Satin Frocks.

It is worthy of note that all the newest models in collars are accompanied by cuffs. This is due to the recent vogue for plain tailored serge and satin frocks, which are to be so smart for street wear this fall, and which require no other trimming than the relief afforded by the white or contrasting tones of neckwear. Lovely little collars cut narrow in the back and in deep points in the front are finished with three rows of tiny ruffles edged with plect; these are accompanied by deep cuffs showing the same trimming.

Most of the collars shown are developed in sheer organdie, with double hand hemstitching, hand embroidery and very narrow frills of valenciennes lace. A great many of them are finished with black crepe de chine ties or small taffeta tailored bows.

Fillet lace is extensively used in collars for separate blouses, especially in the high necked models.

Probably the wide-brimmed hat will always be the favorite for evening wear, most women preferring the small, severe hat for afternoon costumes only.

DRUGS EXCITE YOUR KIDNEYS, USE SALTS

If your Back hurts or Bladder bothers, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water--you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

The Bird Being an Ostrich.
"Out of mere curiosity," says an exchange, "we would like to read Mr. Hoover's own daily menu."
Judging from Herbert's lantern jaws and emaciated physique, he does not eat any more than a bird.--Exchange.

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch ! ? ! ? ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callous stops soreness at once, and soon the corn or callous dries up and lifts right off without pain.

He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callous from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.

Salted With Fine Words.

"Where did you get that gold mine you are promoting? Who did the prospecting?"
"No one; but we have a first-class man doing the prospecting."--Boston Transcript.

SICK WOMAN HAD CRYING SPELLS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Enhaut, Pa.--"I was all run down and weak inwardly. I had female troubles and nervous feelings and my head bothered me. I would often have crying spells and feel as if I was not safe. If I heard anyone coming I would run and lock the door so they would not see me. I tried several doctors and they did not help me so I said to my mother 'I guess I will have to die as there is no help for me.' She got me one of your little books and my husband said I should try one bottle. I stopped the doctor's medicine and took Lydia E. Pinkham's Vegetable Compound. It soon made a change in me and now I am strong and do all my work."--Mrs. AUGUSTUS BAUGHMAN, Box 86, Enhaut, Pa.

Why will women continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?
If you would like free confidential advice address Lydia E. Pinkham Medicine Co., Lynn, Mass.
