ROUGHAGE FOR SHEEP
Legume Hays Stand at Fore-
front in Feeding Value.

Not Only Is Timothy Unpalatable to
Animals, but It Causes Serious
Cases of Constipation—Much
Grain Is Saved.

(Prepared by the United States Depart-
ment of Agriculture.)

By using the right kind of hay in-
stead of grain, sheep can be wintered
successfully and much grain saved for
other purposes. Sheep require less
concentrated feed during the winter
than other live stock. If they are
in good condition at the beginning of
the winter and if lambs are not ex-
pected before the spring pastures come
on, the grainless ration is to be ad-
vised.

Legume hays stand at the forefront
as a roughage for sheep. No other
roughages approach them in feeding
value. The coarse-stemmed hays,
like timothy, red top and blue grass
have very few leaves and therefore
are poor sheep feeds. Hays having
a large amount of timothy in them also
are undesirable. Not only is timo-
thy unpalatable to the sheep, but it
causes serious cases of constipation.
The dry timothy heads work into the
wool, causing irritation to the skin,
lessening the value of the clip and
making shearing difficult. When timo-
thy or other coarse-stemmed hay is
fed to sheep in winter quarters it be-
comes necessary to use some supple-
mentary feed to keep the sheep in con-
dition.

If any nonlegume hay is fed, supple-
mentary protein feed is needed. Lin-
seed meal is good since in addition to
furnishing protein it counteracts the
constipating effect of timothy hay.
From one-quarter to one-half pound
of linseed meal per ewe daily should
be used, depending on the size and
condition of the animal and the other
feed used.

In an experiment conducted at the
Missouri station and reported in bul-
letin No. 120, the relative values of
clover and timothy hays for wintering
ewes were determined.

Fifteen ewes fed 2.9 pounds timothy
hay and 0.35 pounds grain per head
daily lost 7.6 pounds each during the
same time that another lot receiving
the same weight of grain and clover
hay gained 6.5 pounds. The 14 ewes
fed clover hay dropped 16 strong
lambs, while those fed timothy drop-
ped 11 strong and 5 weak lambs.
The lambs from the ewes fed clover
hay gained more rapidly during the
first 30 days than did those from the
ewes fed timothy hay.

WATER SUPPLY FOR POULTRY
In Winter It Will Be Necessary to Re-
new Four or Five Times Daily—
Use Common Utensils.

The hens need a good supply of
clean water, and in winter it will be
necessary to renew the water four or
five times a day. There are devices on
the market which the sellers profess
will keep the water from freezing, but
at present poultry men, both large and
small, agree that the best way is to
put the water in ordinary utensils and
renew the supply with sufficient fre-
quency to prevent the birds going
thirsty.

TIME FOR MAKING REPAIRS
List of Jobs Required Should Be Made
and Work Completed Before Cold
Weather Sets In.

Are there repairs that ought to be
made in the dairy barn before winter?
Better spend a half-hour making a
list of them; and then fix each one as
quickly as possible. This will save time
and trouble later on.

SAVE FARM MACHINERY
Word is being sent out to
farmers over the country to take
special pains this fall and winter
to protect their machines. Prices
have advanced greatly, and care
of farm machinery will pay doubly
well this year. So the word
is going out—

To put machines under cover
as soon as the season's work
with them is over.
To go over every machine
carefully as soon as opportunity
will permit, tighten bolts, replacing
broken parts, and oiling
carefully to prevent rusting.
To paint machines, as painting
lengthens the life of a machine.
If ridge paint is suggested as best
for iron parts.

Expect Lot of Suckers.
Like bigets like, and if we select
good corn from plants that have grown
a lot of suckers this year, we may
expect a lot of suckers next year.

WEIGHING DEVICE IS HANDY
Farmer Enabled to Read Record at
His Leisure and Comfort—Bur-
den Taken From Hands.

Many times farmers weigh heavy ar-
ticles by holding the scales and their
load by one or both hands, while try-

Weighing Convenience.

ing to read the wavering record on the
face—a burden at arms length. Note
the easier way. As one holds the
lever down he reads at leisure, and
with comfort, the weight which the
scales show. The "bean-and-pea"
scales can be used in the same way.
—Orange Judd Farmer.

BEST PLACE FOR SEED CORN
Well Ventilated Room With Artificial
Heat, If Needed, Should Be Had
for Curing.

Word is being sent to the farmers
of Minnesota to take special pains in
drying and storing their seed corn this
fall. C. P. Bull, university farm, St.
Paul, secretary of the state commit-
tee of food production and conserva-
tion, says:

"The amount of moisture to be re-
moved from the corn this fall is larger
than usual. A well ventilated room
with artificial heat, if needed, should
be provided for curing. Care should
be taken, however, not to dry the
corn too rapidly. The temperature of
the drying room should be kept some-
where between 60 and 70 degrees. The
ears should be hung up by the double
string method or should be put on
hangers or trees; it should not be
dumped in a pile in a bin.

"A double allowance, if it can be
had, should be saved, in order to ad-
mit of a more rigid selection next
spring.
"The present indications are that
there will be a good demand for seed
corn."

BENEFITS OF CHICK FEEDER
Advantages Claimed Are That Birds
Are Prevented From Overfeeding
and Crowding.

The V-shaped bottom of this feed
hopper is made of woven wire and

Chick Feeder.

the tray beneath is shallow. The ad-
vantages claimed for this arrange-
ment are that the chicks are pre-
vented from overfeeding and crowding.
—Wisconsin Agriculturist.

WATER ESSENTIAL FOR STOCK
Ample Supply Should Be Available in
Winter as Well as Summer—Tank
Heater Not Needed.

Water should be available in ample
quantities for the stock in winter as
well as in summer. It is one of the
best physical regulators that the ani-
mals can have and it goes into the
building of blood and flesh just as
much as does the feed which you give
the animals.
It is well to have the water as warm
as possible in winter as the stock will
drink more freely of it than they will
of cold water. This does not mean that
it is necessary to install a tank heater
for all kinds of stock. For most of
the live stock all that is necessary is
to pack hot manure around the tank
several inches deep and to break the
ice several times a day in order that
the animals may drink.

Horses for Heavy Work.
The greater the uses of farm horses
are magnified in the choice of breed-
ing-stock, the less adapted are the
horses for heavy work.

Keeping Our Soldiers Strong
Early in the world war experience proved the
extraordinary value of cod liver oil for strengthening
soldiers against colds, pneumonia and lung troubles.
Thousands of Our Soldiers are Taking

SCOTT'S EMULSION

Because it Guarantees the Purest Norwegian Cod Liver Oil
high in food value and rich in blood-making properties.
Scott's will strengthen you against winter sickness.
Beware of Alcoholic Substitutes.

The imported Norwegian cod liver oil used in Scott's Emulsion is now refined in
our own American laboratories which guarantees it free from impurities.

BUT NO EQUALS. Write for Information.
Vaughan Motor Works, 475 E. MAIN
PORTLAND, OREGON.

An Optimist.
It was 5 a. m. He was starting
the furnace fire at this unseemly
hour.

Without warning a large lump of
coal leaped from its berth on top of
the coal pile and landed squarely on
the captain of his toe brigade on the
left foot. In other words, the coal
landed squarely on his big toe. He
warned up much more quickly than
the fire as he hopped about on one
foot in imitation of a Russian toe
dancer.

He swore, cursed his luck, increased
the white space on his face, and then
—then—then he began to smile. And
his toe thumped like a stranded auto
engine!

"Why, I really am lucky," he
thought. "I'm lucky to have a coal
pile big enough for a lump of coal to
get a start on. Come on, do it again,"
he dared and smilingly cast his grouch
in the furnace, gave his aching toe
a rub or two and cheerily went to
work.

A postal card to Garfield Tea Co.,
Brooklyn, N. Y., asking for a sample
will repay you.—Adv.

The Rear Guard Removed.
Doris was rather backward in her
studies. One day when her father was
inquiring into her standing at school
she admitted that she was lowest in
her class.

"Why, Doris, I am ashamed of you!"
her mother exclaimed. "Why don't
you study harder and try to get away
from the foot of the class?"
"It isn't my fault," Doris replied in
tones of injured innocence. "The little
girl who has always been at the foot
has left school."—New York Times.

SHAKE INTO YOUR SHOES.
Allen's Foot-Ease, the antiseptic powder. Makes
tight or new shoes feel easy. Relieves Corns,
Bunions, Hot, Swollen, Tender, Aching Feet. Sold
everywhere. 25c. Don't accept any substitute.

Roy, N. Y.

Generous.
"Do you tend your own furnace?"
"No," replied Crosslots. "I'm not
selfish. If we get in enough fuel to
start a little blaze, I let the whole
family gather around and enjoy it
with me."—Exchange.

Constipation, indigestion, sick-head-
ache and bilious conditions are over-
come by a course of Garfield Tea.
Drink on retiring.—Adv.

The Trouble.
"Has Bliggins an ear for music?"
"Yes. The trouble is that he won't
limit himself to his ears, but insists
on trying to use his voice."—Washing-
ton Star.

Modern Micawbers.
She—Why do all the men hang out
in front of the postoffice on such a
windy day?
He—Oh, they're just waiting for
something to turn up.—Minnehaha.

Dr. Pierce's Pellets are best for liver,
bowels and stomach. One little Pellet
for a laxative—three for a cathartic.

Vanity.
"I have never met," he said, "more
than two really lovely women."
"Ah!" she said, looking up inno-
cently, "who was the other?"—Ex-
change.

No Sign of It.
"Our new washerwoman, dear, is
rather timid."
"Well, judging by the condition of
my best collars, I should think her
brave enough to be ready for the
fray."—Exchange.

Natural Result.
"You appear to eat well, Johnny,"
said his aunt, whom he was visiting.
"Yes'm," said Johnny; "I've been
practicing all my life."—Exchange.

Facetious Calculation.
"Can you tell me if you take a bone
from a dog, what remains?"
"If you try it on my bulldog, it's
your remains."—Exchange.

**COMB SAGE TEA IN
FADED OR GRAY HAIR**

If Mixed with Sulphur it Dark-
ens so Naturally Nobody
can Tell.

Grandmother kept her hair beauti-
fully darkened, glossy and attractive
with a brew of Sage Tea and Sulphur.
Whenever her hair took on that dull,
faded or streaked appearance, this
simple mixture was applied with won-
derful effect. By asking at any drug
store for "Wyeth's Sage and Sulphur
Compound," you will get a large bot-
tle of this old-time recipe, improved
by the addition of other ingredients,
all ready to use, for about 50 cents.
This simple mixture can be depended
upon to restore natural color and
beauty to the hair.

A well-known downtown druggist
says everybody uses Wyeth's Sage
and Sulphur Compound now because
it darkens so naturally and evenly
that nobody can tell it has been ap-
plied—it's so easy to use, too. You
simply dampen a comb or soft brush
and draw it through your hair, taking
one strand at a time. By morning
the gray hair disappears; after an-
other application or two, it is restored
to its natural color and looks glossy,
soft and beautiful. This preparation
is a delightful toilet requisite. It is
not intended for the cure, mitigation
or prevention of disease.—Adv.

Of Course.
The Parson—You must remember,
brother, that the rain falls alike on
the just and the unjust.
The Deacon—Not much it doesn't!
Maybe you don't know that I went
home from prayer meeting the other
night with your umbrella.

SELF DEFENSE
Defeat Backache and Kidney
Trouble With Anuric

Many people in this city have suffered
from rheumatism and kidney trouble and
have found that Anuric was the most
successful remedy to overcome these
painful and dangerous ailments.
The lucky people are those who have
suffered, but who are now well because
they heeded nature's warning signal in
time to correct their troubling with that
wonderful new discovery of Dr. Pierce's
called "An-u-ric" (double strength). You
should promptly heed these warnings,
some of which are dizzy spells, backache,
irregularity of the urine or the painful
tingles of rheumatism, sciatica or lum-
bago. To delay may make possible the
dangerous forms of kidney disease, such
as Bright's disease, diabetes or stone in
the bladder. If you want quick relief
buy it now—or send Dr. Pierce 10c. for
trial pkg. This will prove that "Anuric"
eliminates uric acid as hot water melts
sugar.—Adv.

Save the Craps.
"Conserve the game" is another war
slogan. But even in time of peace one
shouldn't shoot craps.—St. Joseph
News-Press.

DO YOUR COWS FAIL TO CLEAN?
This is a serious condition and re-
quires prompt attention.
Dr. David Roberts' Price
