Ray Taylor came in from Baker Monday, accompanied by his father, E. S. Taylor, who has been in poor health for some time and was taken to the hospital at the county seat last week that a more thorough diagnosis might be made of his case. The physicians pronounced his trouble due to nervous breakdown and ailments incident to old age.

Jas. A. Davis of New Bridge called Monday and ordered the News to be sent to James E. Duke and Guy Sharpe, both of whom are in U. S. service, and also renewed his own subscription. Mr. Davis and family recently returned from a visit to Calgary and other points in Canada and says the effects of the war are painfully apparent in the sections visited, as cripples are very numerous. He had an interview with a wounded soldier home from the front on a furlough who told him that the experiences on the battlefield were beyond power of description and seemed like a horrible nightmare.

Prefers Chamberlain's

"In the course of a conversation with Chamberlain Medicine Co.'s representative today, we had occasion to discuss in a general way the merits of their different preparations. At his suggestion I take pleasure in expressing my estimation of Chamberlain's Cough Remedy. I have a family of six children and have used this remedy in my home for years. I consider it the only cough remedy on the market, as I have tried nearly all kinds."—Earl C. Ross, Publisher Hamilton County Republican-News, Syracuse, Kansas.—adv

The first issue of the Soldiers News Letter has reached us and we find it full of items from each county of the state that will be of interest to the Oregon boys in France. It is a 48-page paper and will be issued twice a month.

Mrs. Jno. F. Herr entertained about twenty-five ladies at a Kensington on Saturday afternoon in honor of her daughter-in-law, Mrs. Harry Herr of Bingham Canyon, Utah. The affair is reported the most enjoyable social event held in the Valley for a long time.

I. B. Hazeltine, deputy state game warden, has written us in regard to securing a dozen or more pair of prairie chickens for a game conservation society of New York City. On investigation we found that the prairie chickens, which a few years ago were found in this locality in hundreds, are now extremely scarce, and we so informed Mr. Hazeltine.

For the third time J. N. Holcomb is again in the general merchandise business at New Bridge, having purchased the Harry Criss stock on Monday and taking immediate possession, putting Chas. Peter Sass recently sold thirty head of cattle, consisting of 27 steers, two cows and one yearling stag, that brought him an average of \$128 per head. Still there are men who cannot see the benefit derived in raising good stock.

C. H. Elliott returned from his trip to Indiana last week. He informed us that a great portion of the corn crop in the "corn belt" was so injured by the early frost and fall rains that it is unfit to crib or ship, and is being gathered as fed. He was within fifteen miles of Camp Funston, Kansas, at the time of the bank hold-up and murder, and was told by a soldier that within a few minutes after the crime was discovered a guard was stationed every seven feet around both the camp and the town.

Stomach Troubles

If you have trouble with your stomach you should try Chamberlain's Tablets. So many have been restored to health by the use of these tablets and their cost is so little, 25 cents, that it is worth while to give them a trial.—adv

Field Crops of Canada.

The census and statistics office has issued its preliminary estimate of the total value of the field crops of Canada for the past year, as compared with the finally revised estimates of 1916 and 1915. The estimated values for 1917 represent the prices received by farmers and are calculated from current market quotations. According to this preliminary estimate, the total value of all field crops for 1917 is placed at \$1,080,687,000, as compared with \$886,494,900 in 1916 and \$825,370,600 in 1915. The items making up this total are as follows: Wheat, \$451,874,000; oats, \$250,112,000; hay, clover and alfalfa, \$145,531,000; potatoes, \$81,355,000; other grain crops, \$134,000,700; and root and fodder crops, \$40,974,700.

In the year 1916 the crops were as follows: Wheat, \$344,000,400; oats, \$210,957,500; hay, clover and alfalfa, \$171,013,300; potatoes, \$50,982,300; other grain crops, \$84,079,800; and other root and fodder crops, \$84,165,000.

Kerensky Real Diplomat.

Here is a Kerensky story told by a man lately returned from Petrograd. Kerensky was summoned from his hotel after midnight to the headquarters of the provisional government. A fellow guest at the hotel met Kerensky as he was going out and, learning of the summons Kerensky had received, exclaimed:
"Not another revolution, I hope!"
"I don't know," replied Kerensky, and hurried away.
The next day his fellow guest asked Kerensky what had been the trouble which had brought him out so late the previous evening.
Kerensky smiled.
"I had forgotten to sign a letter," he replied.

Returned From California

John Farley returned Friday from California where he had been for several weeks. He first went to San Diego, expecting to see his son Leonard, who had been stationed at that point in the aero service, but found that he had been taken to the hospital at San Francisco and operated on for gall stones and appendicitis.
Mr. Farley found Len recovering from the operation nicely and receiving the best of care and attention. The commanding officer informed Mr. Farley that everything possible would be done to bring Len out well and strong.
John saw Wm. Wright at the hospital and says his arm is now all right but he is being treated for a spinal ailment. He also met Roy Bodah, who is doing guard duty at the Presidio, and took dinner with him at the company mess hall.
Mr. Farley received word last evening that Len had underwent another operation during the past week.
