APPRECIATIVE LETTERS

Some Where in France.
December 30, 1917.

Mrs. J. F. Herr, Richland, Ore.
Dear Madam: I wish to thank you and the members of the W. H. M. S. for the dandy Xmas box you sent me which I received the day before Christmas. It came through fine and I enjoyed it very much.

Our company had a Xmas tree in the Y. M. C. A., and with our Holiday rations and the good things we received from home, we never lacked for any of the necessities for a real Xmas dinner. In the evening we had an entertainment and a good time in general.

Thanking you again, I remain,
Yours truly,
Eylar Staight.

Dear Friends:
I wish to thank you for the nice Christmas package I received a few days ago. It is a great comfort to know that the boys in the army are remembered at home.

Mrs. A. L. Barber,
Richland, Oregon.

Dear Friend: I received the Xmas box on the 24th and must say that I was very much pleased to receive a present from my home town and state it gives us fellows a lot of pleasure to get something from home when we are so far away among strangers in a way, altho the people here don't seem like strangers for I think I have a lot of friends here both civilians and soldiers, but nevertheless I still like to know that the old ones have not yet forgotten me. There is another thing, it gives a fellow courage to face the future, no matter

what it may be, if he knows that the people back home are appreciative and stand behind him, for after all it is the people at home that we are preparing to fight for and they that will decide it in a way, for although we may give up our lives we cannot win without your help.

Soon Over His Cold.

Everyone speaks well of Chamberlain's Cough Remedy after having used it. Mrs. George Lewis, Pittsfield, N. Y., has this to say regarding it: "Last winter my little boy, five years old, was sick with a cold for two or three weeks. I doctored him and used various cough medicines but nothing did him much good until I began using Chamberlain's Cough Remedy. He then improved rapidly and in a few days was over his cold."—ad

Goat Milk is Favored.

There is no doubt that goat milk is superior to cow milk. It is known that the value of the milk of the goat is and has always been one of the best points about the goat milk. The goat presents itself, as a writer, "The goat is practically free from tuberculosis. According to the annual reports of the bureau of animal industry (U. S.), covering federal inspection of animals slaughtered for food, there were inspected during the eight years, 1907 to 1914, inclusive, 579,617 goats, of which not a single animal was condemned for tuberculosis. This fact alone should be the strongest argument in favor of the milk of the goat. The cream globules of the milk of the goat are smaller than those of cows' milk, and because of this milk being condensed the cream globules are contained in a more perfect state of emulsion than the cow's milk. An argument in favor of sterilized milk is that authorities agree it is actually more easily digested than is the fresh milk, this referring to goats' and cows' milk alike.
