The American House Manager is
today a member of the army that
is fighting to save democracy in
the world. More than 11,000,000
managers of American homes
have enlisted for the duration of
the war and pledged themselves to
support the fighting men by the
way they buy, cook and serve food.
Food will win the war, and these
women will help to win it. Amer-
ica must send food to Europe.
The armies cannot hold out if we
fail to send it. Only certain foods

can be shipped—those that pack
the most food value into the small-
est shipping space. These foods
are wheat, meat, fats, sugar. We
cannot eat them and send them
too. We cannot eat them and
send others. We must send these
foods, and in order to do that we
must eat other foods ourselves.
The American House Manager
will see to it that no food comes
into her home that does not do its
full duty under her management
in winning the war.
