## Don't Fail to Come

Admission: Adults 25c; Children 15c

### LOCAL AND OTHERWISE Public Auction! NEW BRIDGE Monday, Mar. 11

Dr. McArthur was a visitor from Baker this week.

Mrs. Ella Foyen of Baker is at the L. C. Holman residence.

R. W. Shirley of Ontario is visiting with Jack Jamison and may locate here.

Military style hats for ladies, latest out, can be bought at Saunders Bro's.—ad

Miss Maude Halley accompanied Miss May Murphy to Halfway Saturday, returning Sunday.

Mr. and Mrs. Otis Moody have moved to the Basche Ranch on Snake River recently purchased by Orson Moody.

Auto and truck drivers are urgently needed in the army and volunteers will be accepted from the men subject to draft.

We can well afford to save and lend. We must save and lend our savings to the government if the Hun hordes are to be kept from despoiling our nation.

Jas. E. Poole of Chicago, one of the highest authorities on livestock in this country, recently said: "It would be particularly

Having disposed of my property and expecting to leave soon I will sell to the highest bidder on the above day and date at my home

- THE FOLLOWING
- 1 large Cupboard
  - 1 Dresser
  - 1 large Mirror, bevel French plate glass in solid oak frame
  - 1 kitchen stove with reservoir
  - 1 heater
  - 8 heavy comforts
  - 1 iron bedstead
  - 2 feather beds
  - 35 gals canned fruit and pickles
  - 25 gals 2-yr-old apple cider
  - 1 cold water cream separator
  - 1 double shovel plow
  - 1 6 1-2 foot cross cut saw
  - 1 5-tooth cultivator
  - A large lot of Dr. Koch's remedies and specialties
  - Dishes and miscellaneous articles
- Sale begins at 1 o'clock, don't fail to be on hand early.

FRED WILKINS, Owner

fortunate for the livestock interests of the entire Pacific Northwest if R. N. Stanfield was nominated and elected U. S. senator."

## OLD SOL TO BE TOTALLY ECLIPSED

On June 8th Next a Path of Darkness Will Extend Entirely Across the United States About Midday

Headlights burning at midday in order to light up the darkness that will come with a total eclipse of the sun. This is what is to happen on the Union Pacific System on June 8th next. The Union Pacific will have practically a monopoly on the eclipse, the path of totality following its lines across Colorado, Wyoming, Utah, Idaho, Oregon and Washington.

The need for turning on the headlights is no joke. The moon is the cause of it all. On that date Luna becomes looney and steps directly in front of old Sol, shutting out the light almost as completely as if an incandescent globe had had its current switched off. Among the peaks that tower around Denver and in Rocky Mountain National Park; in the canyons near Ogden and Salt Lake City, where you see the Devil's Slide; through the dense forests and mountain defiles on the way to Yellowstone Park, and down the Columbia River gorge, where you see Multnomah Falls, Mount Hood, and the famous Columbia River Highway, the darkness will be more real than out on the plains.

Never before in the history of the world has a single railroad system had a monopoly on such an important event as an eclipse of the sun, and for that reason the Union Pacific System is getting everything in readiness to be host to the rest of the country, who may want to journey out to the mountains to take a look at their private eclipse which they have all ready to pull off in their own front yard.

Scientists, near-scientists and just curious will make the trip and they will be given a regular little eclipse, too. The West always does these things better than other folks.

Quite some time will be consumed in getting the moon directly in front of the "boss" and it will take a little while to get her away again, but she will "hesitate," that is, she will demonstrate once more, to old Sol, that he is not the whole thing and shut him out "totally" for nearly two minutes. That is the time the lights will have to be turned on, if during those two minutes the busy hands of the mothers, sisters and sweethearts are to continue with sweaters and mufflers, and the Union Pacific

trains are to glide into the canyons and out again with their usual and time-honored safety.

Someone at this point is no doubt wondering what the soldiers in the trenches will think of the eclipse. Well, they aren't in on it. This is an American eclipse, in fact a Union Pacific eclipse, which is something worth thinking about when we remember that we will not have another total eclipse in these good old United States for twenty-seven years.

Result: Denver is right there, as she always is. Dean Herbert A. Howe of Denver University has polished up his big telescope, fixed up a lot of extra things to go with it and has sent letters all over the country with the legend, DENVER WELCOMES YOU, printed in big type. The folks at Yerkes Observatory at Green Bay, Wisconsin, are going to be at Denver. Other observatories will send their best scientists. In order to make sure, however, that they will not miss anything that may be revealed behind the skirts of the moon, delegations are also getting ready to visit Green River, Wyoming. On the cliffs near this little mountain town they will set up their instruments and get things all ready to take a look.

The thing they will be looking for most intently is what the astronomers call the corona. The corona is a ring of light that completely surrounds the sun and by some is called a halo, the sun being the only thing in all the universe that has a real honest-to-goodness halo. Many men have been reputed to wear halos and many others think they do, but the sun is the only thing that can prove it, and oddly enough it is his better half, the moon, that comes along about every quarter century and pulls off a total eclipse in order to make the old world sit up and take notice of this halo which old Sol wears. Usually a total eclipse is to be seen only in the far-away places of the world, the South Sea Islands or China, and never before, at least so say the folks at Denver observatory, has the path of totality been laid out over a course that takes in a big telescope like that at the Colorado capital.

Long's Peak, in Rocky Mountain National Park, will be one of the highest points in the path of totality and all the big summer resort hotels that cluster

near its base are making plans to supply their guests with smoked glass and other things through which they can observe the appearance of the sun during the time he is put in the shade by the moon.

Other well known points on the Union Pacific System are getting ready too. Among them are: Bocatello, Idaho; Baker, Oregon; The Dalles, Oregon; Heppner, Oregon; Chehalis and Hoquiam, Washington; Sulphur Springs and Central City, Colorado, which are a little off the line of the Union Pacific, are also getting ready. Portland, Oregon, will witness a 99 per cent eclipse and Seattle, Washington, 98 per cent.

It is up in the mountains and on the high plateaus, however, where the eclipse will be best observed because of the cloudless skies, the rarified air and the absence of dust and smoke, which interfere in the lower altitudes. For this reason, it seems certain that more scientists will travel over the lines of the Union Pacific System early next June than have visited the western country for many years.

While the Union Pacific System and the cities and towns through which it runs in the states named above will have a monopoly on the total eclipse there will be a partial eclipse over almost the entire area of the United States and a considerable portion of Canada, ranging from 68 per cent total at New York City to 74 per cent at Los Angeles, and from 99 per cent at Tallahassee, Florida, to 98 per cent at Seattle, Washington.

Other cities and the degree of totality are as follows:

- Minneapolis, 78 per cent; Chicago, 80 per cent; Galveston, Texas, 85 per cent; Philadelphia, Pa., 71 per cent; St. Louis, Mo., 85 per cent; Cheyenne, Wyo., 97 per cent; Helena, Mont., 92 per cent; Omaha, Neb., 88 per cent; New Orleans, La., 95 per cent; Lincoln, Neb., 90 per cent; Jacksonville, Fla., 96 per cent; Salt Lake City, Utah, 97 per cent; Topeka, Kan., 93 per cent; Albuquerque, N. M., 89 per cent; Atlanta, Ga., 92 per cent; Des Moines, Iowa, 85 per cent; Pierre, S. D., 86 per cent; Detroit, Mich., 71 per cent; Phoenix, Ariz., 79 per cent; Madison, Wis., 74 per cent; Spokane, Wash., 93 per cent; Bismarck, N. D., 81 per cent; Pittsburg, Pa., 74 per cent; Louisville, Ky., 84 per cent; Nashville, Tenn., 90 per cent; Reno, Nev., 87 per cent; Sacramento, Cal., 82 per cent; Raleigh, N. C., 82 per cent; Mount Hamilton (Lick Observatory), Cal., 78 per cent; Mount Wilson (Carnegie Solar Observatory), Cal., 74 per cent; Portland, Me., 60 per cent; Portland, Ore., 99 per cent; Colorado Springs, Colo., 83 per cent; and Boston, Mass., 43 per cent.

All who can get ready for a trip to the mountains over the Union Pacific and see a real eclipse of the sun. If you can't come, get your smoked glass ready and on June 8th—about noon—go out into the back yard and take a look.

### ANXIOUS TIMES FOR THE ADMIRAL.

NOT MUCH! A REAL FRIEND  
-THE ORDERLY WITH OUR  
SUPPLY OF W-B CUT.

IS HE LOOKING FOR  
THE ENEMY?

YES-AND IF HE DOESN'T  
HURRY I'LL GIVE HIM A  
WEEK IN THE BRIG!

Mr. and Mrs. W. E. Bean and family will leave the first of next week for Lebanon, Ore., where Mr. Bean has accepted the pastorate of a church.

To Lease—54a sage brush land all under ditch; will make it worth while to renter for term of years. Call on address Clint Graven, 1245 Place St., Baker.—ad2tp

The mayor has started "spring clean-up" by ordering all open hay stacks and manure piles removed at once. The next order will be to shut up the chickens.

W. L. Kirby was down from Lookout the first of the week. He said the grass was growing in fine shape in that section and that he had turned his cattle out on the range.

Taken Up—a bay horse weight around 1000 lbs; branded JB on right stifle; saddle marked; owner may have same by paying for keep and cost of advertising. Thos. Seigel, Richland, Ore.—adv

### METHODIST CHURCH

Sunday School at 10:00 a. m. E. E. Holman, superintendent. Preaching at 11 a. m. and 7:30 p. m. Epworth League at 6:30. Prayer meeting every Wednesday evening at 7:30 o'clock. Choir practice at 7:30 Thursday evening.

The Woman's Missionary Society meets the third Thursday afternoon of each month.

The Board of Stewards holds its regular meeting Tuesday evening after the first Sunday of each month.

Everybody cordially invited to attend all of the services of the church.

A. Thomas, Pastor

One German army has already occupied America. The invisible host of spies is everywhere. Be careful what you say—a word to a spy is sufficient.
