If you smoke a pipe, slice Gravely with your knife and add a little to your smoking tobacco. It will give flavor—improve your smoke.

Sunday Evening's Service at New Bridge.

We had a very impressive and profitable service in the little church at New Bridge last Sunday evening.

First was the League service at 7:30, led by Miss Edna Eidson. Subject, "How can we lead souls to Jesus."

At 8:30 a thirty-minute song and prayer service began, after which Rev. J. M. Johnson preached an excellent sermon from the text found in II. Timothy 3:1-5.

* Among others present in the large and attentive audience was Mr. Wm. Gordon, who departed yesterday to join the U. S. army.

It being the last service Will could attend in Eagle Valley before leaving, at Bro. Johnson's request he came to the platform, and while the choir sang an appropriate song the people all marched around and gave him a fare well handshake.

Many were the tearful eyes and many the fervent expressions of "God bless and be with you." It was an impressive and long to be remembered service, but the most touching and beautiful of all was when the aged father and mother came forward and embraced their strong, stalwart son.

Former Resident Prospers.

F. L. Cundiff in sending his renewal says he is at present located at 234 Grove St., Baker, while having a new house built on his place near Haines. In regard to his recent land trade he writes: "I will tell you the particulars of the deal. I traded 480 acres for 520 acres and drew \$22,500 to boot. Am keeping 160 acres of my best land and 160 of timber land at Haines, and have this 520 acre ranch at Unity located in the heart of the best bunch grass country I know of. It is irrigated with water from the Whited reservoir; only 3 or 4 others are interested in the reservoir besides myself and it holds water enough to irrigate 3500 acres. If you want to see me back in Eagle, trade what I have for Eagle property."

Gardening in Town.

Yes, our garden beds we rake and all manner of pains we take, to have them slick, nice and neat, in fact they simply can't be beat. We turn our backs and go away and view them on the coming day. Horrors, those beds so span and spick, are clawed and wallered—we raise a kick; our neighbors' chickens are running loose and garden making's but little use. Those darned old hens our garden looting, may tempt us yet to do some shooting.

A Fairly Good Appetite.

Kaffies, North American Indians and the fat boy in "Pickwick" may well be quoted as fearful examples of voracity, but even their gastronomic feats are exceeded by the full grown Eskimo, who will daily eat twenty pounds of flesh and oil if he has the chance, while on the authority of Admiral Sartcheff a Yakut of Siberia has been known to consume in twenty-four hours "the hind quarter of a large ox, twenty pounds of fat and a quantity of melted butter for his drink."
