### Use No Wheat Flour.

The food administration announced last Sunday that the citizens of Oregon were to be eased into the "wheatless regime" by a five days' training period.

The women of Baker county do not need this easing process. We are ready to stand on a wheatless program. We have been in training for some time to meet this situation.

The food administration has

made stirring appeals for every citizen to return the wheat flour on hand, but some of our people have not heard. Are you unpatriotic or just selfish? Selfish because you do not realize that our armies are without bread—the food which makes over half of their diet. The wheat flour which you return goes directly into the government service.

You have stood staunch and true on all other war work, and now is the time to settle down on the same basis with this wheat

flour proposition.

May Murphy,  
Emergency Home Demonstration Agent.

## We cannot eat our cake and feed our Soldiers, too

THE sooner the American people look the facts in the face the sooner the war will be over—and the fewer American soldiers will lie in their graves on the other side of the sea.

The facts are these:

**We cannot go on living as we did before the war. We cannot have the comforts and luxuries we used to have.**

Do not be misled by the fact that we can raise armies far outnumbering those of our enemy. Our soldiers cannot fight with bare hands and empty stomachs, and we cannot arm and feed them if we go on consuming vast quantities of foods and goods we don't need—if we demand, for our selfish comfort, the labor of thousands of men who ought to be hustling night and day to supply the ships, aeroplanes, guns, ammunition, motor trucks, clothing and food our soldiers **must** have if we are to win this war.

Our country needs the money you thoughtlessly spend for unnecessary things. It needs—desperately needs—the labor employed in making these things. Begin to save now. Save everything you can. And by all means save, by buying U. S. Thrift Stamps and War Savings Stamps, the **small sums** of money you now spend for things you can get along without.

Go today to any bank, any post office or any store where you see the W. S. S. (War Savings Stamps) sign displayed.

For 25 cents you will receive a U. S. Thrift Stamp and a card to paste it on. The card has spaces for 16 stamps, costing you \$4. When it is full, exchange it—with a few cents additional in cash—for a War Savings Stamp, for which the Government will pay you \$5 January 1, 1923.

These War Savings Stamps are as safe as U. S. Bonds. They are the safest investment in the world because they are backed by the entire resources of the country, and the profit you make on them amounts to 4 per cent interest, compounded quarterly, on January 1, 1923.

Every time you have money you don't absolutely need buy a War Savings Stamp. Every time you have a quarter you can possibly spare, buy a U. S. Thrift Stamp.

This may seem like a little thing to do, but in reality it is a big thing, a patriotic thing, a powerful thing. For every quarter you can save and lend your country goes to make a soldier comfortable; helps arm and feed him; helps him to fight; protects his life, and does its utmost to cleanse the world from the horrors of German tyranny and despotism.
