RICHLAND, ORE., THURSDAY, JUNE 6, 1918, Vol. 6, No. 30.

By Mrs. Robt. J. Burdette.  
 The firing line is now in your kitchen.  
 Knock out the breadline at your table.

It has been said that the Revolutionary War was won by men fed on heavy pudding, in other words, corn meal mush. Let it be written in history that the winning of the present war was made possible by the United States eating potatoes.

The manner of eating, the time of eating and even the kind of foodstuffs eaten are largely a matter of habit. We do not desire to break ourselves entirely of the habit of eating or life would not prove worth living, but it can be made to prove better worth living if we change some of the habits. Suppose we cure ourselves of the hand-eating habit and see if we do not consume less bread. If you were to put your bread and butter on your plate and eat it with a knife and fork it would reduce the amount of bread eaten at once. In some of the Oriental countries men carry strings of bright red wooden beads that are known as "Conversation beads," and they seem unable to talk unless they have them in their hands to play with and pass from one hand to the other. We seem to need something in our hands at table or we feel the meal is incomplete and that something is usually bread. Forget this habit and save wheat. If you must continue the hand-eating habit, hold a hot potato.

**How to Increase World's Bread Ration**  
 With famine creeping through Europe, and every nation struggling to produce enough food to sustain life, the American farmer has a duty that he can not shirk. America must ship food to Europe for our soldiers. America must supply bread to starving peoples. No matter what other crops are raised, more acres should be devoted to bread grains. "Do your bit, Mr. Farmer," says a Food Administration bulletin. "Success depends upon you in this world war."

West Point is on a food-conservation basis, and the health of the cadet corps is better than ever. All bread used is composed of 45 per cent wheat flour, 45 rye, and 10 per cent white bolted grain flour; and many cadets consider it superior to the former white bread. Sugar consumption has been cut down, meatless days and meals are rigidly observed, and the reduced amount of meat has been beneficial to health. A lesson from a reliable source.

**Taking It From Babies.**

"Every ounce of wheat products in excess of six pounds per month that you eat, Mr. American Citizen, is that much literally taken from the mouths of the starving women and children of France," says a Food Administration bulletin. "The armed allies may go without wheat, but these innocents will actually die unless we give them of ours in generous proportion."

Victory bread is received with hearty approval. But don't be satisfied to use it on a wheatless day or at a wheatless meal, because it isn't wheatless.  
 Get your supply of coal now.

**Catarrhal Deafness Cannot Be Cured**

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 15c.  
 F. J. CRENEY & CO., Toledo, O.

**ALLIED FOOD SHIPMENTS REACH LARGE TOTAL.**

A general idea of the quantity of food sent to European allies by the United States from July 1, 1914, to January 1, 1918, is given by figures just announced by the U. S. Food Administration. In that period the United States has furnished complete yearly rations for 57,100,933 people. In addition there was enough extra protein to supply this portion of the diet for 22,194,570 additional men.

The total export of wheat and wheat flour to the three principal allies is equivalent to about 384,000,000 bushels. Pork exports for the 3 1/2 years amounted to almost 2,000,000,000 pounds. Exports of fresh beef totaled 443,484,409 pounds. The amount of food exported to Russia is negligible compared with that sent to the western allies.

**Whooping Cough**

In this disease it is important that the cough be kept loose and expectoration easy, which can be done by giving Chamberlain's Cough Remedy. Mrs. P. H. Martin, Peru, Ind., writes: "My two daughters had whooping cough. I gave them Chamberlain's Cough Remedy and it worked like a charm."—ad
