WHY WE ARE AT WAR WITH **GERMANY**

EPHRAIM DOUGLASS ADAMS Executive Head, History Depart-

Leland Stanford Junior University

THE NATION AND MORAL DUTIES

The rulers of Germany believe that they have the right to prevail over all gle has but just togan, other nations. They also believe that the power of the state is the only object for which its rulers should struggle. Still further, they believe that moral principles and ideas have no place in determining the actions of the state, since the sole duty of the state is to get power. This is German political philosophy. American political philosophy, from the very beginning of our institutions, has opposed this theory, and now in this war is fighting against it. For the German theory necessarily carries with it utter denial of the claims of moral feeling, of international right, of human decency and chivalry.

The German historian, Treitschke, at whose feet princes and rulers sat, eagerly absorbing his teachings, devoted his life to spreading this gospel of Power. It is true, he said sneeringly, that "a stock of inherited conceptions of integrity and morality is a necessity for government," (useful, neutral nations-all of them actions that subjects of the state be obedient), she once pledged herself to foregobut "the end all and be all of a has lost, in short, all sense, appar-state is Power." "The state is the state is the state is dragging the former sole judge of the morality of its own actions. It is, in fact, above morality, or, in other words, whatever is necessary is moral."

relations, that there is no rule or must be waged, until they are deguide to conduct except self-interest, feated, or there is no safety for men In this present war a follower of or nations. Treitschke, one of the leading common-school educators of Germany, Kirschensteiner of Munich, drives home the theory. "The great lesson which the German people has had to learn is to think in terms of power.

. Let no one here say that small states, too, can have a national daughters had whooping cough. I gave life of their own. True, so long as the great states around them allow them to exist. But any day may see the end of their existence, in spite of all treaties to the contrary. .

Neither alliances .nor treaties provide the least security. . . . There are no ethical friendships between states in our day. . . There are only friendships of convenience. And friendships of convenience last just as long as the convenience itself."

Professor Eulenberg of Leipzig sums it up, "All ethical considerations are completely alien to the state and the state must therefore resolutely keep them at arm's length."

Can we wonder that the German Foreign Secretary spoke of the broken treaty with Belgium as a "scrap of paper?" or that the school children of Germany celebrated the sinking of the Lusitanial or that German agents in America, smoothly friendly in appearance, secretly plotted, before we were in the war, to destroy our industries, our railways, even our lives?

Is there no such thing any more as a common humanity-no "decent respect to the opinion of mankind," as Thomas Jefferson stated it in the Declaration of Independence? Is our ideal of righteou ress, yes, even of unselfishness, impossible in international politics? This war, if Germany is defeated, may decide these que-

Catarrhal Deafness Cannot Be Cured Catarrhal Desiness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by eatarth, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thruthe blood on the mucous surfaces. Hall's Catarrh Medicine acts thruthe blood on the mucous surfaces. We will give One Hundred Dollars for We will give One Hundred Deliars for any case of Catarrhal Desfiness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.

tions, but if Germany wins, the strug-

This American democracy of our denies, and has always denied, the German theory; It asserts that the laws which formulate the duties of men toward each other are binding upon nations equally with individuals. For centuries civilization has been slowly advancing from ignorance, prejudice, and selfishness toward sympathy, understanding, and a desire to see justice dane, whether between individuals or nations. The "be all and end all" of a state is not Power-it is Justice.

And the German government has left us in no doubt as to the results of her theory, in application. That government has broken a solemn treaty with Belgium, ordered the murder of innocent hostages, bombarded unfortified towns, torpedoed unarmed passenger ships, destroyed works of art where they could not be carried to Germany, plotted secret war against good name of the German people through a mire of dishonor, the stain of which will not be removed for generations. Against this mad phi-From this it follows, in international losophy and mad government the war

Whooping Cough

In this disease it is important that the cough be kept loose and expectoration easy, which can be done by giving Chamberlain's Cough Remedy. Mrs. P. H. Martin, Peru, Ind., writes: "My two them Chamberlain's Cough Remedy and it worked like a charm."-ad

The INSTANT, pleasant action of Ader-i-ka surprises both ductors and attents. It removes foul matter which oisoned your stomach for months lichland Drug Store -- adv

Potatoes for Patriotism.

By eating polatoes instead of wheat the people of the United States can celp win the war. We have not nough wheat for the Allies and ourclves. We have an abundance of potatoes. Wheat flour is a concentrated ood and therefore good for shipping: potatoes are bulky and are consequently not suited for limited shipping space, nor are the Allies so short of potatoes as of wheat. Next to cereals, potatoes have been in this country the mainstay of starchy food, which supplies energy.

The more potatoes we eat, the less wheat we need. A medium-sized potato, weighing about 31/2 ounces, supolies about as much starch as two small slices of wheat bread one-half inch thick. In other respects also, the potato measures up well with wheat bread and even has the advantage over it in supplying certain salts which the body needs to counteract the acidity resulting from the use of such foods as cereals, meat and eggs. By exercising her ingenuity the housewife can prepare potatoes in many different attractive ways, thus increasing their proportion in the family diet and conserving wheat and other staples needed for shipment abroad. An important use of potatoes, also, is in the mixing of breads, in which mashed potatoes up to fully ten per cent may be used without detracting from its appearance or taste; in fact, many persons hold that potatoes properly mixed in bread, improves both appearance and flavor.
