GOOD ROADS

PROTECT ROADS OF COUNTRY

Former Governor Tener Declares It Military Necessity to Keep Highways in Repair.

"It is up to the federal, state and local governments to save our highways," remarked John K. Tener of Pennsylvania, former governor, president of the Permanent Highways corporation of New York. Governor Tener declared that it is a military necessity for the proper authorities to protect the roads. "We must preserve the roads of the country, and particu-

Application of Seal Coat in Progress.

larly we must save the foundations if we are to protect the commerce and industries of the country which are supplying the needs of our men on the battle fronts as well as the taxes of the government and the necessities of the men, women and children who are keeping the wheels going at home.

"The federal government, the manufacturer and the farmer for months have been depending on the highways for the transportation of enormous amounts of materials and supplies by motor trucks. The roads fast are wearing down and hundreds of miles of highways will become useless unless the resurfacing of these roads is encouraged so that the foundations may be saved. In road construction, the principal cost is in the foundations. The top, or road surface, naturally is the first to give way, break and finally grind up and disappear, leaving the foundations exposed.

"Foundations costing hundreds of millions of dollars now are in danger of being ruined forever, when they could be saved by proper resurfacing, but this should be done at once or else the costly foundations will have to be done all over again. In some states and localities there is a disposition to delay work until after the war on the theory that men and materials are more needed in the war work. This is a mistake which should be corrected. Without the highways the business of the country would be crippled. The roads must be preserved both for war purposes and for the safeguarding of our industries, upon which our country's revenues depend. Makeshift surfacing will crumble in a few months and will have to be done all over again. If properly surfaced now, hundreds of millions of dollars will be saved."

BOOST FOR GOOD ROADS IDEA

Highway Magazine Does It by Asking Four Questions—Delivery Facilities Increased.

Four questions which every American is requested to put to himself are suggested by the Dixie Highway, the good roads publication of the Dixie Highway association.

Do you ever stop to consider that every bale of cotton the farmer can add to his wagonload makes his profits that much greater?
And that every pound of merchandise which can be added to the truckload makes truck haulage that much more reasonable?
And that every foot of good road over which these wagons and trucks travel increases the nation's delivery facilities?
And that every inch of bad road—of fair-weather-only road—makes hauling that much more expensive; makes the farmer's profit that much less than it should be?

Width of Earth Roads.

The width of the earth road will depend on the traffic. As a rule, 25 or 30 feet from ditch to ditch is sufficient if the road is properly crowned. Ordinarily the only ditches needed are those made with the road machine, which are wide and shallow.

GREAT TRACTOR and IMPLEMENT DEMONSTRATION

September 5, 6, 7, 1918, Portland, Oregon.

Ancient "Breadfather."

Of what great importance the loaf, which before 1200 was the name of bread, was a daily food can be inferred from its relation with the word "lord." For lord, A. S. hlaford (hlaf, bread, loaf; weard, a keeper), is probably a contraction of hlaf-weard, literally "loaf-ward" and therefore, originally signified the keeper or dispenser of bread—in short, the breadfather, to whom the members of the family had to apply for their daily bread.

To keep clean and healthy take Dr. Pierce's Pleasant Pellets. They regulate liver, bowels and stomach.

Never.
We've noticed one thing. Spontaneous combustion never starts a fire in the kitchen stove.—Browning's Magazine.

Our doubts are traitors and make us lose the good we oft might win by fearing to attempt.—Shakespeare.

With the Fingers! Says Corns Lift Out Without Any Pain

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any freezone he can get it at any wholesale drug house for you—Adv.

Largest Hens' Eggs.

The largest hens' eggs are produced in Manchuria, those weighing one-sixth of a pound being common.

WHEN IT LOOKS DARK to any weak or ailing woman, Dr. Pierce's Favorite Prescription comes to her help.

For "female complaints," pains, inflammation or ulceration, bearing down sensations, and all chronic weaknesses and derangements, this is the proven remedy. It's the only one so sure that it can be guaranteed. "Favorite Prescription" will benefit or cure, in the case of every tired and afflicted woman.

An easily procured vegetable pill is made up of May-apple, the dried juice of the leaves of aloes, and the root of jalap, made into a tiny pellet and coated with sugar. It was first put into ready-to-use form by Dr. Pierce nearly 50 years ago. Almdst every drug store in this country sells these vegetable pellets in vials for 25c—simply ask for Dr. Pierce's Pleasant Pellets. They have Dr. R. V. Pierce stamp.—Adv.

To Remove Rusty Screws.

Apply a red-hot iron to the head of a rusty screw and hold till the iron cools a trifle. Immediately after removing the iron use the screw driver and the screw will turn easily.

Comfort Baby's Skin

When red, rough and itching with hot baths of Cuticura Soap and touches of Cuticura Ointment. This means sleep for baby and rest for mother. For free samples address, "Cuticura, Dept. X, Boston." At drugists and by mail. Soap 25, Ointment 25 and 50.—Adv.

Composition of Mica.

Mica, so named from its being easily divided into glistening scales, consists of silica and alumina, associated with magnesia, soda and lime in varying proportions. Thus there are potash mica, consisting of silica, alumina and potash, and magnesia mica, in which the alumina is partially replaced by magnesia, passing—as the proportion of magnesia increases—into soft talc, which is chiefly composed of silica and magnesia.

TO ALL WOMEN WHO ARE ILL

This Woman Recommends Lydia E. Pinkham's Vegetable Compound—Her Personal Experience.

McLean, Neb.—"I want to recommend Lydia E. Pinkham's Vegetable Compound to all women who suffer from any functional disturbance, as it has done me more good than all the doctor's medicine. Since taking it I have a fine healthy baby girl and have gained in health and strength. My husband and I both praise your medicine to all suffering women."—Mrs. JOHN KOPPELMANN, R. No. 1, McLean, Nebraska.
This famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, has been restoring women of America to health for more than forty years and it will pay any woman who suffers from displacements, inflammation, ulceration, irregularities, backache, headaches, nervousness or "the blues" to give this successful remedy a trial.
For special suggestions in regard to your ailment write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.
