FOURTH LIBERTY LOAN

The all-important "zero hour" of the battles in France is to have its counterpart in the campaign of the Fourth Liberty Loan in Oregon.

Battles in France are timed from an hour or minutes of an hour. This time is known as the "zero hour" and is a secret closely guarded by the division heads. All movements of troops and all action is based on time calculations made from the "zero hour." A certain infantry receives instructions to take a certain objective at so many minutes past the zero hour. In that way a whole campaign can be worked out in detail, with all commanders fully aware of their relation to other movements, waiting only the secret which is the key to the whole movement.

Oregon's "zero hour" for the next Liberty Loan is nine o'clock a. m., September 28th. This is to be the watchword of the whole drive and through voluntary subscriptions this state is expected to have attained all objectives and again be "over the top" first by nine o'clock of the day when other states will just be getting into action.

In appreciation of the sacrifice made by the home boys in service Eagle Valley citizens will not fail to subscribe their share of the Fourth Liberty Loan Bonds.

More Fires in Pine Valley

A hay barn together with 100 tons of hay, located on the old Brooks' ranch in Pine Valley, was completely destroyed by fire last Saturday morning, and only by heroic work of neighbors was a large field of grain adjoining saved from destruction. Mr. Frank Sturgill, the owner, estimates the loss at \$2500. The blaze was discovered at about 11 o'clock coming from the top of the barn and as no one had been seen near the building that morning it is believed that I. W. W.'s placed an incendiary time-bomb of some sort in the hay the night previous.

An ice house and some buildings in Halfway were discovered on fire Saturday morning, and as there have been several mysterious blazes in that neighborhood recently, the Pine Valley residents will not deal gently with the guilty parties if they are captured.

Save Peach Pitts—Save Lives

The Federal Government has issued a request for all apricot, peach and plum pitted available. Walnuts are also wanted. They are used for the manufacture of a special carbon used in gas masks. Saving the pitted may save some boy's life, so throw none away.

While no special instructions have yet been received, Barney Eidson has volunteered to store all brought to him at New Bridge and those brought to Richland may be left at Raley's store or the News office.

Flynn & Co.'s cigar factory in Baker is one of the cleanest, lightest, and most sanitary establishments of its kind in all the United States; none but expert union workmen are employed; and all tobacco used is grown under a contract that insures the highest grade of leaf. The result is cigars of most exquisite flavor and unequalled smoking qualities. Always ask for Flynn's cigars and you'll get satisfaction.—ad

The boundaries of Halfway will be extended. But one person voted "no" at the recent election.
