KAISER PLANNED TO RULE WORLD AFTER 6 MONTHS WARFARE

Thought Theft of Iron and Coal From France, Land From Russia, Would Pay Bill

Planning world trade domination, if not actual world rule, as the outcome of a short six-month campaign in Europe, Germany has found herself outcast from among civilized nations, her people impoverished, her honor grievously stained by the blood of Belgium and France, a future of terror, famine and disaster.

I will make room for my growing people by taking some more of France and a few thousand square miles of Russia, and then the Kaiser. "We will get the iron and coal in Northern France for our war machine which we will sell to the scattered population of Russia, and then, besides indemnities, will move them pay for the war. England will not dare come in, and our merchant fleets will soon crowd her from the world trade routes.

All the United States does not understand manufacturers will get to more of our dye and chemicals, and we will also take away from her all the American commerce."

GERMAN GRAVES

Now, at the graves of a million soldiers, the Kaiser is seen, and the sun set on the German empire. "Each will be a grave in the Rhine," is now the German war cry. German cities, German forests, the violation of the land and sea-air-line highways, the cities, "No more of this barbarity," the cities are being in the ghastly ruins of thousands of Gothic and Roman cathedrals in London and Paris.

"We will be crossed, and Cologne and Berlin will witness the death of the Allied guns.

"Five million men in France," cries America, "Remember Belgium and the war in 1918."

To America and her five million fighting men in France will come the greater part of the world war. But that and will not be relieved without the sacrifice of thousands of those men, nor without the most earnest and united support of those of us at home. Where we have given valiant efforts to war work heretofore, we must thrust our shoulders desperately against the wheel of war preparations from now on. To no one person or class is it given to do a greater share in this war than any other person or class. Each must to his utmost.

WEIGHT RESTS ON AMERICAN FARMER

Upon no one class rests a greater responsibility than upon the American farmer, who with his wives and sons and daughters constitutes one-third of our population. He has the first and great responsibility of providing food for the nation at home, food for the fighting men abroad, and food for our allies in the battle line and the home population.

England, with its millions of acres of parks and hunting grounds converted into farms can help raise crops to feed her people and the world. France, with every man in uniform, and

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Sent for list of testimonials. Address: J. nearly half her fields overrun by armies, does even less.

With her grain fields extended by millions of acres of new land, America is responding to the call and allied hunger will never be an ally to Germany. Billions of dollars of America's huge war loans are coming back to the farmer in payment for his grain and stock.

The farmer, for his future honor and standing in the nation, must see that every penny of this sum he can spare is reinvested in war loans. The Fourth Liberty Loan, now upon us, calls for but a portion of what America must spend in war efforts in the next few months. It must be subscribed promptly and overwhelmingly. That "the man who is not for us is against us" is as true now as when it was written centuries ago.

If YOU buy a fifty dollar bond when you COULD BUY a five hundred dollar bond, you are not doing your full duty as an American.

Through Chinese Spectacles.

Here are some comments on the Kaiser from the pen of a Chinese student: "The German Kaiser is not the superior man as deciphered by the Chinese literature; he is surely a mean fellow containing much fraudulent cunning in his deceitful heart. The Superior Man is shown in the merits of the excellent heart with much loving kindness to all peoples; the mean fellow is displayed in the black heart of the unregenerated devils of the hell with much loving kindness only to himself. In the history of China was a Emperor who burnt the books and slewed the scholars to extinct the civilizations of the peaceful inhabitants; but he was not success in his crafty tricks, for the civilizations could never be extincted by such dishonourable barbarism means. Now the German Kaiser he also awfully wishing to slave the people and extinct the civilizations of the universe; he also destroy the literature books, and the arts, and the ships, and mess the people of Allies Nations. But he will not be success."—Manchester Guardian.
