MILK AS STRENGTH BUILDER ADVOCATED

Dr. Mae Cardwell, Back From Washington, Advises Housewives.

Dr. Mae H. Cardwell, of Portland, who recently returned to Oregon from Gary, Ind., New York and Washington, where she was engaged in medical research work for the Children's Bureau of the Department of Labor, said in an interview: "The dairy industries must be encouraged. The children of America must have milk. They cannot thrive without good clean milk. Housewives must use more milk. If they demand it the dairyman will find some solution to his problems and will see that his cows get the feed and that he keeps them alive and in good health. However, if the women don't order the milk, the dairyman isn't going to keep his cows around just as pets and ornaments. Feed is too scarce and labor too high for that. It's up to the housekeepers.

"Are you sending your breadwinners to work with all the vigor and strength you can muster for them in the way of proper food?" asks Dr. Cardwell. "If they don't get the right food they can't think or work well. The same applies to the school children. See that they have milk to drink; milk in puddings. The kitchen is the power plant of the family and consequently, of the nation. Don't waste a drop of milk or an ounce of butter, but use plenty. The health of the nation is the kitchen question. Milk is one of the main factors in a diet."

Baby Export Franches Greater Use Of Milk.

A milk bill and healthy children is cheaper than a doctor's bill and an underfed, undernourished child. It would be cheaper to start right. So says Mrs. A. Bayley, of the Parents' Educational Bureau, Oregon Congress of Mothers, who has presided at the feeding of thousands of babies. She finds the malnourished youngster of three or four years scarce much higher than the child who has had little milk in his diet. Mrs. Bayley preaches a greater use of milk for young and old.

Dairy Commissioner Sees Encouraging Signs.

J. D. Mickie, State Dairy and Food Commissioner, stated recently that the dairy situation, in spite of high prices of feed and scarcity of labor, is not all gloom. Reports have come to him from various parts of the state showing that the housekeepers are beginning to see that they must pay more for milk than they did a few years ago. The dairymen are beginning to take heart, too, in some instances and are looking to the future when the cow of today will be worth much more money alive than she would now, slaughtered. And that future isn't so far off if the dairymen only continue to have courage and patience.

The wise man and the one who is far-seeing, is keeping his herds intact. True, he won't keep the old boarder who would just eat the food and bring no returns, but he is holding his good stock. The sensible housewife, too, must know a man can't feed and care for cows, keep a first class dairy, and provide clean bottles and well paid deliverymen without some expense. The Oregon Dairy Council is doing much to get the situation straightened

State of Ohio, City of Toledo, Lucas County, ss.
 Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE. FRANK J. CHENEY.
 Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1918. A. W. GLEASON, (Seal) Notary Public.
 Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system. Send for testimonials, free.
 F. J. CHENEY & CO., Toledo, O.
 Sold by all druggists, 75c.
 Hall's Family Pills for constipation.

out. The exhibit at the state fair, the splendid cooperation of the Food Administration, the public schools, Oregon Agricultural College and the Bureau of Health, all help the educational work and are part of the great task of "keeping the home fires burning," which task includes the preservation of essential home industries and the health of the nation.

A farmer may slaughter his dairy herd in three hours but he could not replace it in three years.

PRESERVING SCENES OF WAR

Future Generations Will Realize How Much They Owe to Courage and Skill of Photographers.

When the history of the great war comes to be written in the days after the tumult and the shooting have died away, the fortunate chroniclers of the momentous events now in progress will have access to enormously valuable and enormously numerous "documents" of a kind with which their predecessors of the nineteenth century were but scantily supplied, and those of earlier times next to not at all.

Photography can hardly be called new, and as long ago as our war between the states we had photographers, notably the never to be sufficiently thanked Brady, who immortalized the leading figures and some of the events in that conflict. But what was done with the clumsy cameras of that era can hardly be mentioned in comparison with the achievements of the men who today follow every army, often to the very front of battle. The products of their courage and skill will constitute a priceless treasure in the future, and the students of this war, even in remote ages, will be able actually to see its every phase and operation.

The reproduction of photographs by printing processes is equally far advanced beyond the old standards of excellence, and reproductions have become wonderfully cheap. Indeed, so cheap are they and so abundant that few of us realize the need of their preservation, and the result is that already foresighted collectors of carelessly treated magazines and supplements are storing away the foundations of fortunes not to be scorned, even in these days of multimillionaires. With the war less than four years old, copies of periodicals that cost only a few pennies now fetch as many dollars, and "complete sets" are becoming hard to get at any price.—From Topics of the Times, in New York Times.

Gas Made From Straw.

The production of fuel and lighting gas from straw is now made possible by a Canadian invention. This producer, which is designed for individual farm use, offers a practical means for utilizing the vast quantities of straw that now go to waste on the Western plains.

The gas is made in a retort equipped with three cylinders, each of which molds a bale of straw seven feet long, two feet wide, and six inches thick.

After filling and closing these chambers, a straw or gas fire is lighted under them and allowed to burn 30 or 40 minutes. One firing with wheat, oat, barley, or flax straw in this manner produces 1,200 cubic feet of gas, having fuel value of 400 B. t. u. About 32,000 cubic feet of gas can usually be generated from one ton of straw, and in addition six to eight gallons of tar and 640 pounds of carbon, from which lampblack can be obtained.—Popular Mechanics Magazine.

Origin of "Doughboy."

A phrase, strictly American in its modern usage, is that of "doughboy" as applied to an American soldier. An American infantry soldier recently explained the origin of the term to the correspondent in Paris of the London Times after this fashion: "In the Civil war a great number of federal troops were waiting for uniforms, which were made but lacked buttons. So great was the hurry that eventually the men went round the houses in the town and collected buttons off the women's clothing. These were for the most part large buttons from overcoats. Naturally the infantry looked funny with their uniforms fastened by great overcoat buttons. These resembled hard tack (large, round, dry biscuits made of dough) and hence sprang the word 'doughboy,' which has been kept in the United States army as a slang phrase for an infantry soldier."

Conquered at Last.

An unknown genius at Camp Kearney is entitled to a monument "everywhere in America." He'd been a naughty boy or something and was assigned to cut onions for camp mess as a punishment. Imagine the surprise of the corporal of the guard when he discovered the offender blithely dissecting the Bermudas under the protection of his gas mask. "Youse ain't sufferin' no punishment," scoffed the officer, adding, "but 'tis a grand idea and 'tis the wisdom of the country will bless ye, me lad!"

History Repeats Itself.

Not for the first time have German invaders been checked at Chateau-Thierry. It was there, in February, 1814, that Napoleon, by one of those extraordinary forced marches of his, fell upon Blucher, who was confidently marching upon Paris. By swift blows on succeeding days he shattered the second and third divisions of the Prussian army, capturing almost all their artillery, and then fell upon Blucher's main force. In the vicinity of Chateau-Thierry, and compelled him to fall back, with heavy losses.

First Tennis in America.

Forty-four years ago the game of lawn tennis was introduced by a Bostonian, according to records in the possession of George Wright, father of the former national title holder, Pearl Wright. After a visit to England the Massachusetts man brought home nets, rackets and balls, as well as a book of rules then governing the game, and set up a court at Nahant. A little later courts were laid out at Newport, R. I., and also on the grounds of the Staten Island Cricket club, Livingston, Staten Island.

MICKIE SAYS

JEDGING BY THE LETTERS THAT GIT HUNG UP AT THE POST OFFICE FER ADDRESS ER POSTAGE, WITH NOTHIN ON THE ENVELOPE SOB THE POSTMASTER KIN TELL WHO TO RETURN 'EM TO, I SH'D THINK IT WOULD BE A GOOD IDEA FER EVERYBODY T' HAVE US PRINT 'EM A BOX OF ENVELOPES WITH THEIR NAME AND ADDRESS UP IN ONE CORNER

Give to the U. W. W. Fund.

Why women in war time insist upon GOSSARD CORSETS

The Original Front-Lacing Corset

The name Gossard on the inside of the corset guarantees the increased efficiency of any woman who works—whether it be house work, office work, farm work or any one of the many duties that patriotic women have so cheerfully and uncomplainingly assumed during these war times. No garment is so essential for the well being of the women of our country as the Gossard Corset.

The name Gossard is your guarantee of health. Your family physician will tell you that a correctly fitted Gossard safeguards your health by giving a hygienic body support that can be found only in the unequalled design, soft pliable materials and scientific lacing that characterizes these world-famed corsets.

It is your guarantee of a priceless all-day comfort. A correctly fitted Gossard will conserve your energy and increase your efficiency. The name Gossard is your guarantee of true corset economy. It is your guarantee of a wearing service that alone is worth the price of the garment.

The name Gossard is your guarantee of inimitable style. The perfect front and perfect back of a Gossard are and always will be the despair of those attempting imitations.

The Man in the Tobacco Store Says

—it does beat all how men are taking to Real Gravely, now that they know it costs nothing extra to chew this class of tobacco. All you have to do is to get a man to take his first plug of Gravely. Let him get the pure, satisfying Grave-

ly taste, and learn for himself how much longer the small Gravely chew stays with him than a big chew of ordinary plug.

It goes further—that's why you can get the good taste of this class of tobacco without extra cost.

PEYTON BRAND Real Gravely Chewing Plug 10¢ a pouch—and worth it

Notice.

Dr. G. L. Ditch, Co., Richland, Oregon.

FRANCE AND BELGIUM GET AMERICAN SUGAR

Ninety-five per cent. of all refined sugar sent from the United States to the Allied nations went to France and Belgium during the first five months of this year.

France got 72 per cent., or nearly 83,000,000 pounds, and Belgium received nearly 11,000,000 pounds, or 23 per cent.

In each country this sugar was doled out by a strict rationing organization. The entire amount to the Allies in these five months—23,701 tons, almost half of which was shipped in May—is only about one-half of 1 per cent. of our total annual consumption.

In the County Court of the State of Oregon for Baker County.

In the Matter of the Estate of William Bennett, Deceased. Final Account. NOTICE IS HEREBY GIVEN that the undersigned has filed her final report in the above entitled cause and that the County Court of Baker County, Oregon, has set Monday, the 25th day of November, 1918, at the hour of ten o'clock A. M., as the time, and the County Court Room in the County Court House of the City of Baker, Baker County, Oregon, as the place, when and where said final report and all matters connected therewith, and with said estate shall come on for final hearing and determination.

All persons having objections thereto shall then and there appear and make the same.

Dated this 16th day of October, 1918.

JANE BENNETT, Administratrix of the estate of William Bennett, late of Baker County, Oregon, Deceased.
 Date of first publication Oct. 24, 1918.
 Date of last publication Nov. 21, 1918.

VULCANIZING

I have installed a new plant and am prepared to vulcanize anything that it is possible to repair in that manner (even hot water bottles and rubber boots) CASINGS and INNER TUBES a specialty. All work guaranteed satisfactory.

W. E. HOLMES, Plant at Richland Auto Co.—adv
