S. TARTER, Owner

(Continued from First Page)

letter of Oct. 15th. I am afraid
you were a little premature in
your celebration, but never mind
it won't be wasted. You will have
another chance soon," so tell Dad
to keep his dancing shoes limber-
ed up. Well, the boys have be-
gan to celebrate so I'll have to
close, as I can't dodge and write
at the same time."

Nov. 9. "I had just got start-
ed on my last letter when a new
bulletin came in from the front
and all the boys in my section of
the billet went wild so I had to
close and send it anyway. We
can buy some fruit to eat here,
mostly apples and grapes. It is
pretty expensive though; the
French people sure charge the
American soldiers for everything.
I just ate half a pomegranate, I
don't think you see many of them
in the west as I never saw any I
remember of till I got in the east-
ern states. They don't amount
to much anyway. There are
plenty of nuts to be had here and
I eat a good many walnuts. Got
a tumbler full of shelled nuts for
a franc. Can't think of anything
to write that would be of inter-
est. I am a machine gunner now
and should be 'too hard-boiled'
to write."

ware at Richland Drug Store.—ad

RED CROSS FIGHTS DEADLY EPIDEMIC

Besides the special work conducted
by hundreds of Red Cross Chapters
throughout the country in checking
the recent epidemic of Spanish influ-
enza, the organization through its
headquarters at Washington is prepar-
ing to fight a repetition of the experi-
ence that was so disastrous this fall,
educating the public thoroughly re-
garding the symptoms and the proper
care at the beginning of an attack. In
addition to this, the American Red
Cross is fighting tuberculosis. The re-
cent appropriation to the National Tu-
berculosis Association will be used for
educational as well as relief work
throughout the country.

So much has been said about the
aftermath of the epidemic that espe-
cial attention is being given to the
work along this line. The weakness
which follows influenza leaves the pa-
tient in a condition which makes him
a good field for the germs of tubercu-
losis. A thorough physical examina-
tion, proper food and clothing, the use
of mild preventives, will check the
progress of the disease at once.

Tuberculosis, or consumption, as it
is frequently called, is both preventa-
ble and curable, provided the treat-
ment of the disease is begun before it
is too far advanced. Medicine plays a
comparatively small part. The fre-
quently advertised "consumption
cures" should be looked upon as poi-
son. The only medicine which should
be taken is a good tonic which will
stimulate the appetite and build up
the system generally. The main cure
lies in proper food, sufficient rest,
fresh air and sunlight and living, if
possible, according to the plan pre-
scribed by a good physician. This re-
news the patient's vitality and soon
kills the disease entirely.

For several years the National Tu-
berculosis Association has been financ-
ing its work by the sale of Red Cross
seals at Christmas time. The seals
sold for a penny each and by making
a concerted effort enough money was
usually raised to carry the work
through the year. This year there will
be no seals sold because the American
Red Cross has made an appropriation
for the anti-tuberculosis work, and
those who formerly spent their time
selling seals will join in the work for
the Red Cross Christmas Roll Call
during the week of December 16 to 23.

a reasonable price; will exchange
for stock or real estate at reason-
able prices. For particulars ad-
dress, J. P. Wilson, Grants Pass,
Oregon. ad6p

RED CROSS SANTA TO FILL SOLDIERS' SOCKS

An Old Fashioned Celebration of
Yuletide for American
Soldiers in France.

A Christmas tree in every ward of
every American hospital and in every
hospital recreation hut in France!

Every wounded or sick American
fighting man to receive two socks filled
to the brim with fruits, nuts, candy
and smokes!

These are the most interesting fea-
tures of a tentative Christmas celebra-
tion program for the American hos-
pitals arranged by the American Red
Cross in France in co-operation with
the commanding officers of our fighting
forces in that country. Details of the
plan to make Christmas as merry as
possible for the soldiers in these insti-
tutions have just been received at Red
Cross headquarters. Nurses and enlist-
ed men on duty at these places will
also share in the distribution of Christ-
mas cheer. Because of the limited
amount of available shipping space
the Red Cross was compelled to aban-
don its original plan to send special
Christmas parcels from here to soldier
patients in France. All the articles
distributed will be obtained over there.

This is to be an old fashioned cele-
bration in every sense of the word.
Every soldier will hang his socks on
the tree. The socks will be tied with
red ribbon and in addition to the good-
ies mentioned above will contain a
handkerchief and a card, on which
will be outlined the services the Amer-
ican Red Cross is prepared to render
our soldiers. Each soldier will re-
ceive a sufficient number of Christmas
postcards—now being designed by art-
ists in the Red Cross service—to en-
able him to write to members of his
family and his friends back home.

The Christmas dinner, of course, will
be one of the features of the celebra-
tion. After dinner there will be
musical, entertainment, motion pic-
tures and general singing.

Large assortment of towels and
fancy mufflers just put on display
at Saunders Bro's.—ad
