Original "Gag Rule."  
"Gag rule" was a phrase applied to a resolution passed by congress in May, 1836, that three-fourths of all petitions, memorials, resolutions, propositions or papers relating in any way to the subject of slavery or the abolition of slavery should lie on the table without being printed or referred. The rule was abolished a few years later.

**Heroism.**  
Heroism is always the same, however the fashion of a hero's clothes may alter. Every hero in history is as near to a man as his neighbor, and if we should tell the simple truth of some of our neighbors, it would sound like poetry.—George W. Curtis.

**Aim High.**  
If you hit the mark you must aim a little above it; every arrow that flies feels the attraction of earth.—Longfellow.

**How to Get Rich.**  
Some men would have no trouble in getting rich if they held on to the money they earn as they do to the money they borrow.

**ATTENTION TO GRAPEVINES**  
Some Sort of Artificial Protection Should Be Given Where Winters Are Very Severe.

Where the winter is so bitter that grapevines must be given some sort of artificial protection in order to keep them from being killed by the cold, the vines will need to be pruned just as quickly as they become dormant. In mild winters this may be rather late in the season. On the other hand, the early coming of bitter weather may necessitate pruning early in the winter season. The system of pruning practiced in these localities should be such as to permit laying down the stalk and canes to insure growth and bearing next year. These are covered with leaves, rubbish, little mixed with earth, etc., in such a manner as to keep the zero weather and below zero weather from freezing and killing them. In the spring this covering is removed just before the growth begins. All this makes it necessary to do the pruning before the stalks and canes are put to bed for the winter.

**MAKING OVER OLD ORCHARDS**  
Many May Be Well Worth Saving on Account of Growing Demand—Pruning Is Urged.

With the growing demand for fruit, orchards that have stopped bearing because of disease or old age may be well worth saving, according to the horticultural department at the Wisconsin experiment station. Pruning is advised by way of making over the old orchard and restoring its usefulness.

Unless the fruit is of good variety, it will not pay the orchardist to bother with it, say the horticulturists. If the root system is not strong and living, then, too, the tree may as well be cut down.

**LOOK AFTER SLACKER TREES**  
Pruning Is Needed on Most Farms—Better to Leave Too Much Wood the First Year.

Uncle Sam expects that not only every man, but every tree and vine shall do its full duty. On most farms are trees that need pruning. First cut out the dead wood. Then thin out the branches that are interfering with the entrance of light and air. But don't overdo. Better leave too much wood the first year than take out too much, because the latter would throw the tree out of balance and wood instead of fruit would be the result.

**Cause of Apple Canker.**  
Apple canker is caused by a fungus which develops in the growing layer and it should be cleaned out and the wound disinfected.

**Harboring Place for Insects.**  
Dead and dying limbs are harboring places for many noxious insects, such as borers, pin-hole bark beetles.

**Cut Dead Limbs Closely.**  
In cutting off dead or living limbs cut close to the tree and leave no nub, as it will not heal.

**Provide Continuous Trips.**  
Immediate effort in linking together the good roads to provide continuous trips is imperative.

**Road Greatly Improved.**  
By keeping a road drag and dragging the road along one's land after heavy rains the road may be greatly improved.

**Maintain These We Have.**  
Not only should we build better roads, but we should take pains to maintain those we already have.

Watch Cuticura Improve Your Skin. On rising and retiring gently smear the face with Cuticura Ointment. Wash off Ointment in five minutes with Cuticura Soap and hot water. It is wonderful sometimes what Cuticura will do for poor complexions, dandruff, itching and red rough hands.—Adv.

**Breaking all Records**  
Right now—when milk prices are breaking all records—is the time to make new high records in milk production. It is surprising how effectively this can be accomplished by raising the health standard of your dairy cows.  
The most prevalent cow ailments—Abortion, Retained Afterbirth, Bunches, Lost Appetite, Scours, etc.—arise from an impaired condition of the genital and digestive organs. Kow-Kure has remarkable medicinal properties that act directly on these organs, producing regular, healthy action.  
Feed dealers and druggists sell Kow-Kure, in 60c. and \$1.20 packages.

**Sure! High Heels Cause Corns But Who Cares Now**  
You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.  
Freezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any freezone he can get it at any wholesale drug house for you—Adv.
