HELP YOURSELF

More than 150 years ago Benjamin Franklin wrote: "Keep your shop and it will keep you." The stamp of greatness is on Franklin's philosophy because it was not alone of his time; it holds for all time.

Our wars have changed a bit in the economic life of this republic which the great Franklin helped to build. No longer may every man be his own shopkeeper. Most of us help keep some other fellow's shop and a certain element among the assistant shopkeepers have become restless because they have no shop themselves and call themselves I. W. W., Bolsheviks, and other names.

Nevertheless Franklin's homely saying is as true today and as easy to comply with as it was the day he uttered it. The United States government provides the way.

War Savings and Thrift Stamps conceived as a war measure and now backed by the government as a permanent policy, give every man, woman and child in America the chance to keep shop. Each person is allowed to put \$1000 a year into the business—the business of American government. The business guarantees 4 per cent per annum compounded quarterly. It is the biggest business in the world. One can invest as low as 25 cents.

The wonderful thing about it is that the investor helps his country as well as himself.

The total to be raised throughout the country is \$1,600,000,000.

What the world now wants are the fightless days.

If you have no coal, buy a car and burn gasoline!

"Food will win the war," but chewing the rag does not help much.

Meantime, who do you suppose is using that peace palace at The Hague?

This country needs fur-bearing potatoes that will not freeze in transit.

WOMEN OF WEST AGAIN CALLED TO THE COLORS

By MRS. A. S. BALDWIN, Chairman Woman's Liberty Loan Committee of the Twelfth Reserve District.

We have at the present time about two million men in Europe who must be provided with all that is necessary to keep them in good spirits and condition; and when their work shall have been finished, they must be brought home and demobilized. The Government must make good the contracts it has entered into for the construction of all war munitions, and for food supplies already bought.

Having responded to the Government's calls in the past, and having loaned our money ungrudgingly to hurry forward the men and supplies, and victory having come to us because

MRS. A. S. BALDWIN

of this, shall we hesitate for a moment to respond to the last call—the Victory Liberty Loan—when we can do so by pledging our credit, perhaps with some little personal inconvenience, sacrifice or small discomfort?

The blood of the young manhood of America is not now required. That was generously given before the armistice was signed, and now we may give thanks that no more will be taken.

The credit and good faith of our country is at stake. We have won the war, and the cost is small compared with what has been won. The men of the West with red blood in their veins will not need to be appealed to, because they will subscribe to this last call of the Government as ungrudgingly as they did in the past. There are others, however, who may not be so keenly and conscientiously alive to the duty of responding to the Nation's call, and it is to those that the women must direct their most untiring efforts.

This last call is truly a Victory Loan. What greater pride can men and women experience than in contributing to it? A Victory Bond will be worth more than its price expressed in dollars. Every one will be a badge testifying that the holder has helped his country to fulfill its pledge to those who have been spared as well as those who have made the supreme sacrifice.
