Size Doesn't Count.

Size does not always count. The stinger is the small part of the bee, but you soon learn which end it's on.

It isn't always the size of a bank account that we consider; it's the man behind it. We feel that the humble depositor is entitled to the same consideration as the man who owns a mint. Our banking facilities are at the disposal of all alike. We are here to help you if we can. The farmer, planter, mechanic, business man, miner, stockman, professional man, laborer, all are invited to become patrons of our bank. The size of the account is not of first importance. Come in and let's talk it over.

**GREECE WANTS U. S. CHASERS**

Seeks to Purchase Speedy Boats No Longer Needed by American Navy.

Paris.—Greek naval authorities have been examining American submarine chasers which have been in the Adriatic sea with a view to their purchase. The Greek navy already had two former American battleships and expects in the service favor a further augmentation of the fleet with American craft.

A fleet of 36 chasers was sent to the Adriatic to co-operate with the cruisers Olympia and Birmingham and eight destroyers in carrying out America's role in the execution of the provisions of the armistice with Austria. The chasers are now at Malta for overhauling, but in the meantime the Greek government is making overtures for their purchase. These proposals may be entertained, as the close of the war makes it probable that there will be little further need of the chasers, which are particularly suited for navigation in shallow waters like those of the Greek archipelago.

**ROUT ALIENS TO GET JOBS**

Canadian Soldiers Just Returned From the Front Cause Excitement at Winnipeg.

Winnipeg, Man.—Aliens were chased about the city and forced to kiss the Union Jack, an employment agency smashed up and several companies forced to promise that all aliens would be discharged within three days by Canadian soldiers just returned from the front. They found their jobs filled by aliens. One of the first plants visited by the soldiers was that of the Swift Canadian company at Alwood, a suburb. After a near-riot they were promised that the aliens would be discharged within three days. The guarantee was given by the manager of the plant, the mayor and General Ketchen, who were called to the scene. The men then split into detachments, visited many other establishments, enforcing similar demands. Whenever an alien was seen by the soldiers he was chased and forced to kiss the flag.

**Refuses to Raise Chicks.**

Greenville, O.—There is a new allegation in an answer to a divorce petition filed in the county court here by Ira E. Bickel. After denying all of the allegations made by his wife, which were the old stereotyped charges, Bickel comes back and says his wife refused to "raise chickens or do anything else that she ought to do as a dutiful wife."
