## MAKE WORLD SAFE FOR POSTERITY

Federal Public Health Service to Continue Its War Against Disease.

## WANT PUBLIC HEALTH NURSES

Women of the Country Urged to Get Behind Movement and Aid Public Health Nurses—Increase Number if Possible.

Washington.—The United States public health service was the rear-guard of our armies in the war against Germany. It took over the fight against the enemy's most useful ally, disease. It won its share of the war, and sent an army to France fit to fight.

Surgeon General Rupert Blue and the officers under him have signed no armistice, admit no peace. They are keeping up the fight to make men fit. Public proclamation that the war against disease is still on recently was given in an appeal to the 115,000 ministers of the country to devote their sermons to the necessity for keeping our communities as healthful as our camps were.

The appeal of the surgeon general was read from pulpits all over the country, and concludes:

"It is the social responsibility of the communities, of which the churches of every denomination are a part, to continue the work carried on in time of war in order that the world may be safe not only for democracy but for posterity."

### Created as War Measure.

Particular emphasis is given by the United States public health service in opening this campaign to the work of the newly organized department of public health nursing, which, created as a war measure, has proved so valuable that, according to announcements, it will be continued and increased.

The women of the nation are appealed to, in a special communication from the surgeon general sent through the churches, to aid the work of the public health nurses, and to do everything possible to increase their number.

A noteworthy tribute was paid to the nurses by the surgeon general in the following statement:

"For the first time in its history the United States public health service during the recent war organized a department of public health nursing. The work which these nurses performed was of inestimable value. It is not too much to say that without their aid our success in keeping down sickness in the extra-cantonment zones and in making the venereal disease rate in our army lower than that of any other army in modern times could not have been achieved.

"In continuing our general campaign for health, and this special fight against venereal disease, we depend upon the continued assistance of public health nurses.

### Ask Support of Women.

"Behind these public health nurses we hope to have the sympathetic understanding and support of all the women of the country. We believe that we will have this when what the nurse accomplishes for her community is known.

"We depend upon the women of the nation not only for understanding and

## Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc.  
 F. J. CHENEY & CO., Toledo, O.

support but we depend upon them to encourage young women to take up the profession of the public health nurse, we depend upon them also to insist that hospitals provide training for nurses in public health service, including work in venereal diseases."

"In backing the public health nurse, the women of the nation will be backing one of the most vital forces in the struggle against the forces of disease which threaten the health, the safety, the very life of our children, which is the life of our nation."

The national organization for public health nursing is putting forth every effort to provide the increased numbers of public health nurses called for in this extended program of the public health service. The organization, of which Miss Ella Phillips Crandall is executive secretary, with offices at 156 Fifth Avenue, New York, will advise and co-operate in every way with communities which wish to follow out the suggestions of the health service for extended public health nursing work.

## 200,000 JEWS IN YANK ARMY

Comprised From 4 to 5 Per Cent of Total Personnel of American Forces.

New York.—The number of Jews in the military and naval service during the war was between 165,000 and 200,000, or from 4 to 5 per cent of the total personnel of the American forces at the time the armistice was signed, according to "The War Record of American Jews," issued by the American Jewish committee.

It was pointed out that the Jews compose about 3 per cent of the total population, so that the proportion of Jews in the service was about 50 per cent greater than the proportion of Jews in the total population.

Complete casualty records have not been obtained, but the committee estimates that 2,000 Jews were killed in action and that their casualties totaled 10,000.

## THE FIRST THOUSAND

When a man gets a thousand dollars saved up there are always opportunities for a good investment. It is hard to place much less than that. That is why wealthy men who are self made advise young men to begin early and save the first thousand.

Until we went to war, in order to get a thousand dollars together one had to go to the bank and put a little away each month or each week or tuck part of his salary away in an old sock. It was troublesome to go to the bank and the sock was too handy.

Now, however, there is an easy way to get that first thousand. The answer is War Savings Stamps. In them the government of the United States, backing those stamps with a guarantee of four per cent interest compounded quarterly, opens the way. One can begin with "two bits."

## REOPEN PRIVILEGE FOR CONVERSION OF LIBERTY BONDS

Indefinite Extension of Time Granted by Secretary Glass on Earlier Loans.

The privilege of converting Liberty Loan bonds of the first and second issues into bonds of the later issues bearing a higher rate of interest which expired November 9, 1918, has been reopened by the secretary of the treasury for an indefinite period, which may be ended at such date as may be fixed by the secretary on six months' public notice. This conversion privilege applies to 4 per cent bonds of the first and second issues into 4 1/4 per cent bonds.

The conversion may be made by surrendering the bonds now held to the Federal Reserve Bank at San Francisco, accompanied by a "request for conversion," on an application blank which will be mailed from the Federal Reserve Bank.

## Not Coal Land

NOTICE FOR PUBLICATION. (Publisher)
